## Independent Auditors' Report

The Board of Directors  
BATS Global Markets, Inc.:

### Report on the Financial Statements

We have audited the accompanying consolidated financial statements of BATS Global Markets, Inc. and its subsidiaries (the Company), which comprise the consolidated statements of financial condition as of December 31, 2014 and 2013, and the related consolidated statements of income, comprehensive income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2014, and the related notes to the consolidated financial statements.

### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditors' Responsibility*

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

*Opinion*

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2014 and 2013, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2014 in accordance with U.S. generally accepted accounting principles.

### **(1) Nature of Operations**

BATS Global Markets, Inc. and its consolidated subsidiaries (the Company or BATS) is a global financial technology company that develops and operates electronic markets for the trading of listed cash equity securities in the United States (U.S.) and Europe and listed equity options in the U.S. The Company is headquartered in the Kansas City, Missouri, area with additional offices in New York, New York, Jersey City, New Jersey, Chicago, Illinois and London, United Kingdom (U.K.).

In the United States, the Company operates four national securities exchanges, BATS Exchange, Inc. (BZX), BATS Y-Exchange, Inc. (BYX), EDGX Exchange, Inc. (EDGX) and EDGA Exchange, Inc. (EDGA). All trade listed cash equity securities and exchange-traded products, such as exchange-traded funds (ETFs), but each target different market segments by offering different pricing alternatives. BZX also operates a market for trading listed equity options and the Company also lists ETFs on BZX. The Company also operates two broker-dealers, BATS Trading, Inc. (Trading), that provides routed transaction services for listed cash equity securities and equity options on BZX and BYX and Direct Edge ECN, LLC (DE Route), that provides routed transaction services for listed cash equity securities on EDGX and EDGA.

In Europe, the Company's Recognised Investment Exchange (RIE), BATS Trading Limited (BTL), offers trading in listed cash equity securities across 25 European indices and 15 major European markets. In addition, BTL also lists ETFs. Chi-X Europe Limited (Chi-X Europe) provides routed transaction services for listed cash equities within the European market. BTL and Chi-X Europe combined are referred to as BATS Chi-X Europe.

### **(2) Summary of Significant Accounting Policies**

#### ***(a) Principles of Accounting***

The Company follows accounting standards established by the Financial Accounting Standards Board (FASB) to report its financial condition, results of operations and cash flows. References to accounting principles generally accepted in the U.S. (GAAP) in these footnotes are to the FASB Accounting Standards Codification (ASC or Codification).

#### ***(b) Basis of Presentation***

The accompanying financial statements are presented on a consolidated basis to include the accounts and transactions of BATS Global Markets, Inc. and its wholly owned subsidiaries and all significant intercompany accounts and transactions have been eliminated.

#### ***(c) Use of Estimates***

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as well as disclosure of the amounts of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from those estimates. Material estimates that are particularly susceptible to significant change in the near term include the receivable for market data fees, the valuation of goodwill and unrecognized tax benefits.

**(d) Cash and Cash Equivalents**

The Company's cash and cash equivalents are exposed to concentrations of credit risk. The Company maintains cash at various financial institutions and brokerage firms which, at times, may be in excess of the federal depository insurance limit. The Company's management regularly monitors these institutions and believes that the potential for future loss is remote. The Company considers all liquid investments with original or acquired maturities of three months or less to be cash equivalents.

**(e) Restricted Cash**

The Company classifies cash not available for immediate use due to regulatory and other requirements as restricted cash, and presents it separately on the consolidated statements of financial condition.

**(f) Financial Investments**

Financial investments are classified as trading or available-for-sale.

Trading financial investments represent financial investments held by the broker-dealer subsidiaries that retain the industry-specific accounting classification required for broker-dealers. These investments are recorded at fair value with unrealized gains and losses reflected within interest and investment (expense) income in the consolidated statements of income.

Available-for-sale financial investments are comprised of the financial investments not held by the broker-dealer subsidiaries. Unrealized gains and losses, net of income taxes, are included as a component of accumulated other comprehensive income in the accompanying consolidated statements of financial condition.

Interest on financial investments, including amortization of premiums and accretion of discounts, is recognized as income when earned. Realized gains and losses on financial investments are calculated using the specific identification method and are included in interest and investment (expense) income in the accompanying consolidated statements of income.

A decline in the market value of any available-for-sale investment below carrying amount that is deemed to be other-than-temporary results in an impairment to reduce the carrying amount to realizable value. To determine whether an impairment is other-than-temporary, the Company considers all available information relevant to the collectability of the investment, including past events, current conditions, and reasonable and supportable forecasts when developing estimate of cash flows expected to be collected. Evidence considered in this assessment includes the reasons for the impairment, the severity and duration of the impairment, changes in value subsequent to year-end, forecasted performance of the investee, and the general market condition in the geographic area or industry in which the investee operates.

**(g) Accounts Receivable, Net**

Accounts receivable are concentrated with the Company's member firms and market data distributors and are carried at cost. On a periodic basis, management evaluates the Company's

receivables and determines an appropriate allowance for uncollectible accounts receivable based on anticipated collections. In circumstances where a specific customer's inability to meet its financial obligations is probable, the Company records a specific provision for uncollectible accounts against amounts due to reduce the receivable to the amount the Company estimates will be collected. Once the Company determines an allowance for an uncollectible account is necessary, interest on the receivable ceases to be accrued. See note 6 for allowance for doubtful accounts activity.

### (h) *Property and Equipment, Net*

Property and equipment, net is stated at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated lives of the assets, generally ranging from three to seven years. Expenditures for repairs and maintenance are charged to expense as incurred. Depreciation of leasehold improvements is calculated using the straight-line method over the shorter of the related lease term or the estimated useful life of the assets.

Long-lived assets to be held and used are reviewed to determine whether any events or changes in circumstances indicate that the carrying amounts of the assets may not be recoverable. The Company bases this evaluation on such impairment indicators as the nature of the assets, the future economic benefit of the assets, any historical or future profitability measurements, as well as other external market conditions or factors that may be present. If such impairment indicators are present that would indicate that the carrying amount of any asset may not be recoverable, the Company determines whether an impairment has occurred through the use of an undiscounted cash flow analysis of the asset at the lowest level for which identifiable cash flows exist. In the event of impairment, the Company recognizes a loss for the difference between the carrying amount and the estimated value of the asset as measured using quoted market prices or, in the absence of quoted market prices, a discounted cash flow analysis.

The Company accounts for software development costs under ASC Topic 350, *Intangibles – Goodwill and Other*. The Company expenses software development costs as incurred during the preliminary project stage, while capitalizing costs incurred during the application development stage, which includes design, coding, installation and testing activities.

### (i) *Goodwill and Intangible Assets, Net*

Goodwill represents the excess of purchase price over the value assigned to the net tangible and identifiable intangible assets of a business acquired. Goodwill is allocated to the Company's reporting units based on the assignment of the fair values of each reporting unit of the acquired company. The Company tests goodwill for impairment at the reporting unit level annually, or in interim periods if certain events occur indicating that the carrying value may be impaired. The impairment test is performed during the fourth quarter using December 1<sup>st</sup> carrying values, and if the fair value of the reporting unit is found to be less than the carrying value, an impairment loss is recorded. The Company completed its annual goodwill impairment test in the fourth quarter of 2014 and determined that no impairment existed.

Intangible assets, net, primarily include acquired trademarks and trade names, customer relationships, strategic alliance agreements, licenses and registrations and non-compete

Notes to Consolidated Financial Statements

agreements. Intangible assets with finite lives are amortized based on the discounted cash flow method applied over the estimated useful lives of the intangible assets.

Intangible assets deemed to have indefinite useful lives are not amortized, but instead are tested for impairment at least annually, usually concurrently with goodwill. Impairment exists if the fair value of the asset is less than the carrying amount, and in that case, an impairment loss is recorded. The Company has performed the required intangible assets impairment tests and determined that the strategic alliance intangible asset is impaired as of December 31, 2013. The value of the asset was written off to impairment of assets in the consolidated statements of income.

### **(j) Foreign Currency**

The financial statements of foreign subsidiaries where the functional currency is not the U.S. dollar are translated into U.S. dollars using the exchange rate in effect as of each statement of financial condition date. Statements of income and cash flow amounts are translated using the average exchange rate during the period. The cumulative effects of translating the statement of financial condition accounts from the functional currency into the U.S. dollar at the applicable exchange rates are included in accumulated other comprehensive income, net in the statements of financial condition. Foreign currency gains and losses are recorded as other income (expense) in the consolidated statements of income.

### **(k) Income Taxes**

Deferred taxes are recorded on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards, and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

The Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based upon the technical merits of the position. The tax benefit recognized in the consolidated financial statements from such a position is measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Also, interest and penalties expense is recognized on the full amount of deferred benefits for uncertain tax positions. The Company's policy is to include interest and penalties related to unrecognized tax benefits in the income tax provision within the consolidated statements of income.

### **(l) Revenue Recognition**

#### **Transaction Fees and Liquidity Payments**

Under the Company's "maker-taker" pricing model on BZX, EDGX and the Company's RIE, a member posting an order (the liquidity maker) is paid a rebate (recorded in liquidity payments) for an execution occurring against that order, and a member executing against an order resting on the Company's book (the liquidity taker) is charged a fee (recorded in

transaction fees). As a result, transaction fees consist of “taker” fees and routing fee revenues charged on securities that are routed to another market center. Transaction fees and liquidity payments are considered earned and incurred upon execution of a trade and are recognized on a trade-date basis and recorded on a gross basis in revenues and cost of revenues.

Under the Company’s “taker-maker” pricing model on BYX and EDGA, a liquidity taker is paid a rebate (recorded in liquidity payments) for an execution occurring against that order and a liquidity maker is charged a fee (recorded in transaction fees) for posting such an order. Transaction fees and liquidity payments are considered earned and incurred upon execution of a trade and are recognized on a trade-date basis and recorded on a gross basis in revenues and cost of revenues.

#### **Market Data Fees**

Market data fees are earned from U.S. tape plans, including the Unlisted Trading Privileges Plan (UTP), the Consolidated Tape Association Plan (CTA), and the Options Price Reporting Authority, LLC (OPRA), and also proprietary market data products. Fees collected from tape plan subscribers, net of plan costs, from UTP and CTA are allocated and distributed to plan participants according to their share of tape fees based on a formula required by Securities and Exchange Commission (SEC) Regulation NMS that takes into account both trading and quoting activity. Fees from the CTA and UTP are estimated and recognized on a monthly basis and received approximately 45 days after quarter end. Market data fees from OPRA are allocated based upon the share of total options transactions cleared for each of the OPRA members. Fees from OPRA are estimated and recognized on a monthly basis and received approximately 30 days after quarter end. The Company also charges data subscribers directly for proprietary market data in its U.S. Equities and European Equities segments. The proprietary market data fees are recognized on a monthly basis.

#### **Regulatory Transaction and Section 31 Fees**

BZX, BYX, EDGX and EDGA, as U.S. exchanges, are assessed Section 31 fees pursuant to the Securities Exchange Act of 1934 (Exchange Act). Section 31 fees are assessed on the notional value traded and are designed to recover the costs to the government of supervision and regulation of securities markets and securities professionals. These fees are paid directly to the SEC by the four exchanges. The exchanges, in turn, collect regulatory transaction fees that are designed to equal to the Section 31 fees from their members. The Company acts as the principal versus an agent on these transactions, and therefore these transactions are reported gross in the consolidated statements of income. BZX, BYX, EDGX and EDGA collect the regulatory transaction fees as a pass-through charge from members executing eligible trades and recognize these amounts in revenues, and the related Section 31 fees in cost of revenues as incurred on a settlement-date basis. Regulatory transaction fees received are included in cash and cash equivalents and financial investments in the consolidated statements of financial condition at the time of receipt. As required by law, the amount due to the SEC is remitted semiannually and recorded as Section 31 fees payable in the consolidated statements of financial condition until paid. Because the Company holds the funds received until payment is remitted to the SEC, the Company earns interest on the related balances.

### Port Fees

Port fees are generated primarily from connectivity services related to each of the electronic markets. Port fees are recognized on a monthly basis.

### Concentrations of Revenue and Liquidity Payments

For the years ended December 31, 2014 and 2013 one member accounted for 12% and 10%, respectively, of the Company's transaction fees. For the year ended December 31, 2012, no members accounted for more than 10% of the Company's transaction fees. For the years ended December 31, 2014, 2013 and 2012, approximately 9%, 12% and 10%, respectively, of total liquidity payments each year were paid to one member, substantially all of which is recorded in the U.S. Equities segment. No other members accounted for more than 10% of the Company's liquidity payments during the years ended December 31, 2014, 2013 and 2012.

No member is contractually or otherwise obligated to continue to use the Company's services. The loss of, or a significant reduction of, participation by these members may have a material adverse effect on the Company's business, financial position, results of operations and cash flows.

### (m) *Earnings Per Share*

The Company presents both basic and diluted earnings per share. Basic earnings per share is computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted earnings per share is computed by dividing net income by the sum of the weighted average number of common shares and dilutive common share equivalents outstanding.

### (n) *Stock-Based Compensation*

The Company grants stock-based compensation to its employees through awards of stock options and restricted stock. The Company records stock-based compensation expense for all stock-based compensation granted based on the grant-date fair value. The Company recognizes compensation expense related to stock-based compensation awards with graded vesting that have a service condition on a straight-line basis over the requisite service period of the entire award.

The amount of stock-based compensation expense related to awards of restricted stock is based on the fair value of BATS Global Markets, Inc. common stock at the date of grant.

The amount of future stock-based compensation expense related to awards of stock options is based on the Black-Scholes valuation model. Assumptions used to estimate the grant-date fair value of stock options are determined as follows:

- Expected term is determined using the simplified method, using the average between the contractual term and vesting period of the award. The simplified method was used due to the lack of historical information;
- Expected volatility of award grants made under the Company's plan is measured using the weighted average of historical daily changes in the market price of the common

stock of comparable public companies over the period equal to the expected term of the award or a minimum of two years if comparable public company historical market prices are not available for the entire expected term;

- Expected dividend rate is determined based on expected dividends to be declared;
- Risk-free interest rate is equivalent to the implied yield on zero-coupon U.S. Treasury bonds with a maturity equal to the expected term of the awards; and
- Forfeitures are based on the history of cancellations of awards granted and management's analysis of potential forfeitures.

#### **(o) Business Combinations**

The Company accounts for business combinations in accordance with ASC Topic 805, *Business Combinations*, which requires identifiable assets, liabilities and goodwill acquired in a business combination to be recorded at fair value at the acquisition date. Additionally, ASC Topic 805 requires transaction-related costs to be expensed in the period incurred.

#### **(p) Debt Issuance Costs**

The Company accounts for debt issuance cost in accordance with ASC Topic 470, *Debt*, which requires that all costs incurred to issue debt be capitalized and amortized over the life of the loan using the interest method.

#### **(q) Equity Method Investment**

In general, the equity method of accounting is used when the Company owns 20% to 50% of the outstanding voting stock of a company and when it is able to exercise significant influence over the operating and financial policies of a company. The Company has an investment where it has significant influence and as such accounts for the investments under the equity method of accounting. The Company records the pro-rata share of earnings or losses each period and records any dividends received as a reduction in the investment balance. The equity method investment is evaluated for other-than-temporary declines in value by considering a variety of factors such as the earnings capacity of the investment and the fair value of the investment compared to its carrying amount. If the estimated fair value of the investment is less than the carrying amount and the decline in value is considered to be other than temporary, the excess of the carrying amount over the estimated fair value is recognized in the financial statements as an impairment.

### **(3) Direct Edge Acquisition and Recapitalization**

On January 31, 2014 (the Acquisition Date), the Company acquired 100% of the outstanding common stock of Direct Edge Holdings LLC (Direct Edge) (the Transaction). On January 31, 2014 (the Acquisition Date), the Company acquired Direct Edge Holdings LLC (Direct Edge) (the Transaction). The Transaction is intended to combine operations to increase market share for the U.S. Equities segment. In conjunction with the Transaction, the Company recapitalized its voting and non-voting common stock into a newly formed parent entity, and one legacy Direct Edge member was issued solely Class A non-voting shares of the new parent entity and, at their request, certain other legacy BATS stockholders and Direct Edge members were issued voting shares and Class B

non-voting shares of the new parent entity. All other legacy BATS stockholders and Direct Edge members were issued voting shares in the new parent entity.

The results of Direct Edge's operations have been included in the consolidated financial statements since the Acquisition Date.

The acquisition-date fair value of the consideration transferred totaled \$386.2 million, which consisted of the following (in millions):

Fair value of consideration transferred:	
Cash	\$ 12.5
Fair value of share outlay	344.5
Change in control payments	<u>29.2</u>
Total purchase price	<u><u>\$ 386.2</u></u>

The Company issued 9.8 million shares of common stock valued at \$35.14 per share. The fair value was based on a third-party valuation that used a discounted cash flow model and valuation multiples observed of publicly traded companies in a similar industry.

The following table summarizes the estimated fair values of the assets acquired and liabilities assumed at the Acquisition Date (in millions):

Cash and cash equivalents	\$ 65.5
Other current assets	66.1
Property and equipment	10.4
Identifiable intangible assets	120.4
Goodwill	253.5
Liabilities	<u>(129.7)</u>
	<u><u>\$ 386.2</u></u>

Of the identifiable intangible assets recognized, \$71.9 million was assigned to licenses and registrations and has an indefinite useful life. Therefore, this intangible asset will not be amortized, but its impairment will be evaluated at least annually. The remaining intangible assets will be amortized over the following useful lives:

<u>Assets</u>	<u>Useful life</u>	<u>Balance at acquisition date (in millions)</u>
Customer relationships	16 years	\$ 43.0
Non-compete agreements	2 years	3.9
Trademarks/trade names	1 year	1.6

### Notes to Consolidated Financial Statements

December 31, 2014, 2013, and 2012

The goodwill acquired was assigned to the U.S Equities segment, as further described in note 8. The goodwill recognized is attributable primarily to expected synergies of the combined workforce and technologies of BATS and Direct Edge. No goodwill was deductible for tax purposes.

The fair value of accounts receivable acquired was \$27.5 million. The gross amount of accounts receivable was \$27.6 million, of which \$0.1 million was deemed to be uncollectable.

The Company recognized \$18.4 million and \$4.4 million of acquisition-related costs expensed during the years ended December 31, 2014 and 2013, respectively. These costs are included in compensation and benefits, and professional and contract services in the consolidated statements of income.

The amounts of revenue and operating income of Direct Edge are included in the Company's consolidated statements of income from the Acquisition Date to the period ending December 31, 2014 are as follows (in millions):

Revenue	\$	529.4
Operating income		10.4
Net income		16.8

The following unaudited pro forma financial information presents the combined results of the Company and Direct Edge had the acquisition date been January 1, 2013 (in millions):

	Fiscal Year ended	
	December 31,	
	2014	2013
Revenue	\$ 1,509.1	\$ 1,415.4
Operating income	132.6	132.3
Net income	67.4	62.0
Earnings per share:		
Basic	\$ 2.13	\$ 1.96
Diluted	2.12	1.95

The supplemental 2014 and 2013 pro forma amounts have been calculated after applying the Company's accounting policies and adjusting the results to reflect the additional depreciation and amortization that would have been charged assuming the adjusted fair values of property and equipment and acquired intangible assets had been applied on January 1, 2013. The supplemental 2014 and 2013 pro forma financial information includes pro forma adjustments of \$44.3 million and \$4.4 million, respectively, for acquisition related costs, such as fees to investment bankers, attorneys, accountants and other professional advisors and severance to employees.

#### (4) Severance

Subsequent to the Acquisition Date, the Company determined that certain Direct Edge employees' positions were redundant. As such, the Company communicated employee termination benefits to

**Equity Method Investment**

In 2013, the Company acquired a 25% ownership interest in the European Multilateral Clearing Facility, N.V. (EMCF) for \$10.3 million. In January 2014, EMCF changed its name to European Central Counterparty N.V. (EuroCCP). This investment is recorded as an equity method investment, as the Company shares in the proportionate results of the entity and has significant influence over the entity, but does not control the entity. This investment is recorded at \$10.8 million and \$10.3 million at December 31, 2014 and 2013, respectively.

In the fourth quarter 2013, the Company recorded an intangible asset impairment charge totaling \$3.5 million related to the strategic alliance agreements acquired through the 2011 acquisition of Chi-X Europe. The Company has determined the carrying amount of the intangible is not recoverable and exceeded its fair value. The fair value of the strategic alliance was determined using the estimated cash flows from the strategic alliance. This charge was recorded in impairment of assets in the consolidated statements of income and attributed to the European Equities segment.

**(10) Debt**

On December 19, 2012, the Company entered into (i) a term loan agreement in the amount of \$300 million and (ii) revolving loans not to exceed \$50 million (the '2012 Loan'). The proceeds received from the term loan were used by the Company to pay a \$298.9 million dividend, or \$13.20 per share, to all shareholders of BATS Global Markets, Inc. common stock during the fourth quarter 2012. The term of the loan was six years ending on December 19, 2018 with a variable interest rate based on 1-month London Interbank Offered Rate (LIBOR) (with a floor of 125 basis points) plus a spread of 575 basis points. The original issue discount was \$12.5 million, or approximately 4.2%. The revolving loans had similar interest rates and a three-year term, ending on December 19, 2015. The Company incurred \$7.1 million of debt issuance costs, which was capitalized and was being amortized over the term of the loans.

Upon consummation of the acquisition of Direct Edge on January 31, 2014, the Company entered into (i) a term loan agreement in the amount of \$470 million and (ii) revolving loans not to exceed \$100 million (the 2014 Loan). The proceeds received from the 2014 Loan were used by the Company to extinguish the 2012 Loan, pay a dividend to the shareholders and for other corporate purposes. The 2012 Loan, related debt issuance costs and debt discount were extinguished resulting in a loss of \$13.6 million that was recorded in non-operating expense on the statement of income. The term of the 2014 Loan is six years ending on January 31, 2020 with variable interest rate based on 1-month LIBOR (with floor of 100 basis points) plus a spread of 400 basis points (375 if leverage ratio falls below 2.25). The original issue discount was \$1.2 million, or approximately 0.25%. The revolving loans have an interest rate of LIBOR plus 350 basis points and a three-year term, ending on January 31, 2017. The fee on the undrawn portion of the revolver is 0.5%. Principal payments on outstanding balances are made on a quarterly basis. The Company incurred \$8.3 million of debt issuance costs, which was capitalized and is being amortized over the term of the loans.

**(12) Fair Value Measurements**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and sets out a fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Inputs are broadly defined as assumptions market participants would use in pricing an asset or liability. The three levels of the fair value hierarchy are described below:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. The types of investments included in Level 1 include listed equities and listed derivatives.

Level 2: Inputs other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly, and fair value is determined through the use of models or other valuation methodologies. Investments that are generally included in this category include corporate bonds and loans, less liquid and restricted equity securities and certain over-the-counter derivatives. A significant adjustment to a Level 2 input could result in the Level 2 measurement becoming a Level 3 measurement.

Level 3: Inputs are unobservable for the asset or liability and include situations where there is little, if any, market activity for the asset or liability. The inputs into the determination of fair value are based upon the circumstances and the best information available at the time and may require significant management judgment or estimation. Investments that are included in this category generally include equity and debt positions in private companies.

Trading securities:				
U.S. Treasury securities	7.0	7.0	—	—
Total assets	<u>\$ 25.2</u>	<u>\$ 25.2</u>	<u>\$ —</u>	<u>\$ —</u>

The following is a description of the Company's valuation methodologies used for instruments measured at fair value on a recurring basis:

***Available for sale and Trading securities***

Financial investments classified as trading and available-for-sale consist of highly liquid U.S. Treasury securities. These securities are valued by obtaining feeds from a number of live data sources, including active market makers and inter-dealer brokers and therefore categorized as Level 1.

**Instruments Measured at Fair Value on a Nonrecurring Basis**

***Long-lived intangible asset***

The carrying amount of the strategic alliance intangible at December 31, 2013 is measured on a non-recurring basis and based on the estimated cash flows from the strategic alliance which is a significant unobservable input, and is considered a Level 3 measurement valued at zero dollars.

### (15) Related Party Transactions

Certain affiliates of stockholders of BATS conduct trading activity through the Company. The extent of such activity is presented in the accompanying consolidated statements of financial condition, income and cash flows.

The Company maintains brokerage accounts with a stockholder. As of December 31, 2014 and 2013, \$101.5 million and \$59.2 million, respectively, in cash and cash equivalents and financial investments were held in such accounts.

### (16) Regulatory Capital

As broker-dealers registered with the SEC, Trading and DE Route are subject to the SEC's Uniform Net Capital rule (Rule 15c3-1), which requires the maintenance of minimum net capital, as defined. The SEC's requirement also provides that equity capital may not be withdrawn or a cash dividend paid if certain minimum net capital requirements are not met. Trading and DE Route compute the net capital requirements under the basic method provided for in Rule 15c3-1.

As of December 31, 2014 and 2013, Trading is required to maintain net capital equal to the greater of 6.67% of aggregate indebtedness items, as defined, or \$0.1 million. At December 31, 2014 and 2013, Trading had net capital of \$7.9 million and \$6.4 million, respectively, which was \$7.7 million and \$6.1 million, respectively, in excess of its required net capital of \$0.2 million and \$0.3 million, respectively.

As of December 31, 2014, DE Route is required to maintain net capital equal to the greater of 6.67% of aggregate indebtedness items, as defined, or \$0.1 million. At December 31, 2014, DE Route had net capital of \$4.8 million, which was \$4.6 million in excess of its required net capital of \$0.2 million for the year.

As entities regulated by the Financial Conduct Authority (FCA), BTL and Chi-X Europe are both subject to the Capital Resources Requirement (CRR). As a RIE, BTL computes its CRR in accordance with its Financial Risk Assessment, as agreed by the FCA. This CRR was \$16.7 million at December 31, 2014 and \$16.6 million at December 31, 2013. At December 31, 2014 and 2013, BTL had capital in excess of its required CRR of \$19.8 million and \$12.9 million, respectively.

As a Banks, Investment firms, PRUdential (BIPRU) 50k firm as defined by the Markets in Financial Instruments Directive of the FCA, Chi-X Europe computes its CRR as the greater of the base requirement of \$0.1 million at December 31, 2014 and December 31, 2013, or the summation of the credit risk, market risk and fixed overheads requirements, as defined. At December 31, 2014 and 2013, Chi-X Europe had capital in excess of its required CRR of \$0.5 million and \$1.4 million, respectively.

### (17) Stock-Based Compensation

The Company utilizes equity award programs for offering long-term incentives to its employees. The equity incentives have been granted in the form of nonstatutory stock options and restricted stock. In

conjunction with these programs, the Company recognized stock-based compensation expense of \$1.9 million, \$2.2 million and \$5.6 million for the years ended December 31, 2014, 2013 and 2012, respectively. This expense is included in compensation and benefits in the consolidated statements of income.

The Company has three equity incentive plans pursuant to which stock options and restricted stock have been granted: the Amended and Restated BATS Global Markets, Inc. 2008 Stock Option Plan (2008 Plan), the BATS Global Markets, Inc. 2009 Stock Option Plan (2009 Plan) and the Amended and Restated BATS Global Markets, Inc. 2012 Equity Incentive Plan (2012 Plan). Options and restricted stock granted under these plans generally vest over four years. Options granted under the 2008 Plan have five-year contractual terms, while options and restricted stock granted under the 2009 Plan and 2012 Plan have ten-year contractual terms. Pursuant to the 2009 Stock Option Plan and the 2008 Stock Option Plan, the Company authorized grants of options to its full-time employees to purchase up to 2,195,417 shares of the Company's stock. Such shares must be previously unissued or reacquired shares. Pursuant to the 2012 Plan, the Company is authorized to grant restricted stock or stock options up to 525,000 shares.

#### **Stock Options**

In connection with the Company's failed attempt of an initial public offering (IPO) during 2012, the Company's registration statement on Form S-1 was declared effective by the SEC. As a result of the registration statement being declared effective and pursuant to the 2008 Plan and 2009 Plan, all remaining outstanding unvested stock options became fully vested one year after the effectiveness of the Company's registration statement. The Company recorded \$0.4 million and \$1.5 million in stock-based compensation expense for the years ended December 31, 2013 and December 31, 2012, respectively, as a result of the vesting acceleration of outstanding unvested stock options.

During 2012, the Company modified the exercise prices of outstanding stock options as a result of the extraordinary dividends paid during 2012 pursuant to the anti-dilutive provisions of the 2008 Plan and 2009 Plan. The exercise prices were decreased by \$3.31 and \$9.96 for the dividends paid in August 2012 and December 2012, respectively.

During 2014, in connection with the acquisition of Direct Edge, the Company modified the quantity and the exercise prices of outstanding stock options pursuant to the anti-dilutive provisions of the 2009 Plan. The quantity was increased by approximately 8% and the exercise prices were reduced by 15-20% depending on the exercise prices.

Notes to Consolidated Financial Statements

December 31, 2014, 2013, and 2012

The total unrecognized compensation expense related to nonvested restricted stock is approximately \$9.6 million, which will be recognized over a weighted average remaining period of 3.3 years.

During 2014 and 2013, the Company purchased 9,827 and 6,689 treasury shares respectively for \$0.3 million and \$0.2 million, respectively, as the result of 46,586 shares and 25,061 shares of restricted stock vesting, respectively, to satisfy the employee income tax withholdings upon exercise.

During 2014, the Company also paid \$0.7 million for dividends previously declared upon vesting of restricted stock.

**Share Repurchase Program**

During 2012, the Company approved a Share Repurchase Program (the SRP) as a way for employees to liquidate shares acquired through exercise of stock options or vesting of restricted stock. The SRP was effective for the periods ending on December 31, 2014 and 2013. During 2014 and 2013, the Company repurchased 16,430 and 36,536 shares respectively into treasury for \$0.6 million and \$1.2 million, respectively.

The Company has elected to treat BTL and Chi-X Europe as flow-through entities for U.S. federal income tax purposes. As a result, the activities for BTL and Chi-X Europe are treated as branches of the Company, and taxable income or loss reported by BTL and Chi-X Europe are included in the U.S. federal income tax return of the Company. The Company assessed the realizability of its U.K. deferred tax assets and released its valuation allowance in 2013. The Company recorded a corresponding U.S. deferred tax liability for the U.K. deferred tax assets. It is anticipated that a portion of the U.K. tax liability will be offset by U.S. foreign tax credits subject to the limitations of Internal Revenue Code Section 901(m). Pursuant to U.K. tax law, net operating losses do not expire as long as the trade or business that generated the losses remains in existence.

Notes to Consolidated Financial Statements

December 31, 2014, 2013, and 2012

The income tax provision differs from the amount of income tax determined by applying the U.S. federal income tax rate to income before income tax provision for the years ended December 31, 2014, 2013 and 2012 due to the following (in millions):

	2014		2013		2012	
Computed "expected" tax provision	\$ 28.1	35.0%	\$ 26.5	35.0%	\$ 20.3	35.0%

Section 199 benefits	(1.3)	(1.6)	(1.5)	(2.0)	(1.4)	(2.5)
State income taxes	5.0	6.2	4.4	5.8	9.1	15.7
Recognition of unrecognized tax benefits	—	—	(3.8)	(5.0)	—	—
Other	(0.9)	(1.1)	1.8	2.4	(0.5)	(0.8)
Income tax provision	<u>\$ 31.1</u>	<u>38.7%</u>	<u>\$ 28.8</u>	<u>38.1%</u>	<u>\$ 26.5</u>	<u>45.7%</u>

Nondeductible expenses in 2012 include a deduction of \$1.0 million for previously capitalized stock issuance costs which became deductible upon the abandonment of the Company's initial public offering.

The effective tax rate for 2014 was 38.7% compared to 38.1% in 2013 and 45.7% in 2012. The effective tax rate decreased from 2012 to 2013 primarily due to the current year recognition of previously unrecognized state tax benefits. The effective tax rate increased from 2013 to 2014 due a reduction in Section 199 benefits and an increase of unrecognized tax benefits.

The Company provides a valuation allowance against net deferred tax assets if, based on management's assessment of historical and projected future operating results and other available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. Management believes it is more likely than not that the deferred tax assets will be realized based upon expectations of future taxable income.

In 2013, the Company released its valuation allowance associated with its U.K. net deferred tax assets. A reconciliation of the U.K. valuation allowance for the years ended December 31, 2013 and 2012 is as follows (in millions):

	Balance		Changes to		Balance end

**BATS GLOBAL MARKETS, INC. AND SUBSIDIARIES**

Notes to Consolidated Financial Statements

December 31, 2014, 2013, and 2012

A reconciliation of the unrecognized tax benefits for the years ended December 31, 2014, 2013 and 2012 is as follows (in millions):

	<b>Year ended December 31</b>		
	<b>2014</b>	<b>2013</b>	<b>2012</b>
Balance at beginning of year	\$ 6.0	\$ 9.1	\$ 1.9
Additions for acquired entities	0.5	—	—
Additions for current year tax positions	2.1	1.9	3.0
Additions for prior year tax positions	1.0	—	5.2
Reductions for prior year tax positions	(0.3)	(5.0)	(1.0)
Reductions related to expirations of statute of limitations	(0.3)	—	—
Settlements	(1.1)	—	—
Balance at end of year	<u>\$ 7.9</u>	<u>\$ 6.0</u>	<u>\$ 9.1</u>

It is reasonably possible that the total amount of unrecognized tax benefits may decrease by approximately \$1.0 million within the next twelve months due to expiring statutes of limitation.

At December 31, 2014 and 2013, the Company had \$4.9 million and \$4.0 million, respectively, of unrecognized tax benefits, net of federal benefit that, if recognized, would affect the effective tax rate. The Company had accrued interest and penalties of \$0.7 million and \$0.6 million related to uncertain tax positions at December 31, 2014 and 2013. Total interest and penalties increased by \$0.1 million in 2014 and decreased by \$0.8 million in 2013.

The Company files a U.S. federal income tax return and tax returns in various jurisdictions, including a U.K. income tax return for its U.K. operations. The Company's open tax years are 2011 through 2014. The Company is currently under a U.S. federal income tax examination for tax year 2011, 2012 and 2013 and in certain states for certain subsidiaries. The Company believes the aggregate amount of any additional liabilities that may result from this examination, if any, will not have a material adverse effect on the financial position, results of operations, or cash flows of the Company.

Basic and diluted earnings per share:			
Basic earnings per share	\$ 1.56	\$ 2.07	\$ 1.40
Diluted earnings per share	\$ 1.55	\$ 2.06	\$ 1.39

Stock options and restricted stock to purchase 66,731, 46,188 and 102,862 shares at December 31, 2014, 2013 and 2012, respectively, were outstanding but were not included in the computation of diluted earnings per share as they were anti-dilutive under the treasury stock method.

**(20) Commitments, Contingencies and Guarantees**

***Operating Leases***

The Company leases office and data center space under non-cancelable operating leases with third parties. Some leases contain renewal options and escalation clauses based on increases in property taxes and building operating costs.

In November 2012, the Company entered into a lease agreement with a data center provider for the primary data center in Slough, U.K. This lease is for 41 months. In December 2011, the Company also entered into new lease agreements with the data center provider for the primary data center in Weehawken, New Jersey and the back-up data center site in Chicago, Illinois. These leases are for 30 months and 34 months respectively.

In October 2012 and amended in November 2013, the Company entered into a ten year lease agreement for office space in New York, with the one-time option to cancel the lease after five years.

In November 2013, the Company extended its lease at the U.S. disaster recovery space for an additional five years.

In December 2013, the Company entered into new five-year lease agreements with a new data center provider in Secaucus, New Jersey.

In February 2014, the Company extended its lease at its U.S. headquarters for ten years.

Rent expense was \$4.2 million, \$1.9 million and \$2.3 million, for the years ended December 31, 2014, 2013 and 2012, respectively, which is recorded in occupancy expense in the accompanying consolidated statements of income. Other operating lease expense included \$2.5 million recorded in systems and data communications and \$5.6 million recorded in general and administrative for the year ended December 31, 2014, and \$1.3 million and \$1.2 million for the years ended December 31, 2013 and 2012, respectively, recorded in systems and data communications on the consolidated statements of income.

#### *Legal Proceedings*

From time to time the Company is involved in various legal proceedings arising in the ordinary course of business. The Company does not believe that the outcome of any of the reviews, inspections or other legal proceedings will have a material impact on the consolidated financial position, results of operations or cash flows; however, litigation is subject to many uncertainties, and the outcome of individual litigated matters is not predictable with assurance.

In complaints filed on July 22, 2009, May 11, 2010 and August 17, 2010 in the U.S. District Court for the Eastern District of Texas, Realtime Data, LLC d/b/a/ IXO (Realtime) claimed that the Company, along with certain other financial instrument exchanges, investment and commercial banking companies and financial data providers, infringed six Realtime patents by using, selling or offering for sale financial data compression products or services. On September 21, 2011, the case was transferred to the U.S. District Court for the Southern District of New York (the "Southern District"). The Court issued a final order dismissing the case on November 9, 2012. On January 27, 2014, the U.S. Court of Appeals for the Federal Circuit affirmed the entirety of the decision issued by the Court, and in March denied Realtime's request for a panel rehearing. On May 12, 2014, the Company entered into a settlement and license agreement with Realtime.

In a complaint filed on June 14, 2013 in the U.S. District Court for the District of Delaware, Relay IP, Inc. (Relay IP) claimed that the Company infringed a Relay IP patent through the Company's distribution of data using a multicast routing method known as the Protocol Independent Multicast-Sparse Mode standard, also known as the PIM-SM standard. On July 21, 2014, an Order of Dismissal with Prejudice was filed for both BATS and Direct Edge with the Court.

In a complaint originally filed on January 23, 2014 and amended on February 17, 2014 in the U.S. District Court for the District of Kansas, Leveraged Innovations LLC (LI) claimed that the Company

infringed several LI patents by allowing the exchange of shares of leveraged exchange traded funds (Leveraged ETFs) through BZX, BYX, EDGA and EDGX. On December 11, 2014, the Company entered into a Settlement and License Agreement with LI and a Stipulation of Dismissal with Prejudice was filed with the Court on December 12, 2014.

In April 2014, the first of four purported class action lawsuits was filed in the U.S. District Court for the Southern District by the City of Providence, Rhode Island, against more than 40 defendants, including "Exchange Defendants", "Brokerage Defendants" and "HFT (High Frequency Trading) Defendants" (the "City of Providence lawsuit"). BATS Global Markets, Inc. and Direct Edge ECN LLC were among the named Exchange Defendants. The lead plaintiffs are suing on behalf of a class of "all public investors" who bought or sold stock from April 18, 2009 to the present on the U.S.-based equity exchanges operated by the remaining Exchange Defendants or on Barclays LX. The amended complaint asserts violations by all remaining Exchange Defendants of Sections 10(b) and 6(b) of the Exchange Act, and seeks unspecified compensatory damages against all defendants, jointly and severally, as well as various forms of equitable relief. While it is too early in the litigation to estimate any range of possible losses or predict the outcome of the case, the Company believes that these allegations are without merit and intends to vigorously defend this litigation.

In May 2014, three purported class action lawsuits were filed in the Southern District by Harold Lanier against the securities exchanges that are participants in each of the three national market system data distribution plans - the Consolidated Tape Association/Consolidated Quotation Plan, the Nasdaq UTP Plan, and the Options Price Reporting Authority (the "Plans") - which are established under the Exchange Act and regulated by the SEC. Lanier's allegations include that the exchange participants in the Plans breached agreements with subscribers by disseminating market data in a discriminatory manner in that other "preferred" customers allegedly received their data faster than the proposed class. The complaints seek, among other relief, unspecified compensatory damages, restitution of the putative class's subscription fees paid to the defendants, disgorgement of the fees paid by the so-called preferred customers, and injunctive and declaratory relief. While it is too early in the litigation to estimate any range of possible losses or predict the outcome of the case, the Company believes that these allegations are without merit and intends to vigorously defend this litigation.

As a self-regulatory organization under the jurisdiction of the SEC, the Company is subject to routine reviews and inspections by the SEC, and Trading and DE Route are subject to reviews and inspections by the Financial Industry Regulatory Authority (FINRA).

In February 2012, the Company and Direct Edge each received a written requests from the SEC's Division of Enforcement seeking documents and information related to the development, modification and use of order types, and the Company's communications with certain market participants (including certain exchange members affiliated with certain of the Company's stockholders and directors) regarding the development, modification and use of order types; the Company's information technology systems; and trading strategies. On January 12, 2015, the SEC's Division of Enforcement announced an Order Instituting Administrative Cease-and-Desist Proceedings and Imposing Remedial Sanctions against Direct Edge in which Direct Edge entered into a settlement agreement with the Commission, without admitting or denying the allegations, agreeing to pay a fine in the amount of \$14.0 million and comply with certain undertakings. This fine was accounted for in the acquisition of Direct Edge, see note 3 and included in other liabilities in

### ***Guarantees***

The Company uses Wedbush Securities, Morgan Stanley and Merrill Lynch (collectively, affiliates of stockholders of the Company) to clear its routed cash equities transactions. Wedbush Securities, Morgan Stanley and Merrill Lynch guarantee the trade until one day after the trade date, after which time the National Securities Clearing Corporation (NSCC) provides a guarantee. In the case of a failure to perform on the part on one of its clearing firms, Wedbush Securities or Morgan Stanley, the Company provides the guarantee to the counterparty to the trade. The Options Clearing Corporation (OCC) acts as a central counterparty on all transactions in listed equity options, and as such, guarantees clearance and settlement of all of the Company's options transactions. The Company believes that any potential requirement for the Company to make payments under these guarantees is remote and accordingly, has not recorded any liability in the consolidated financial statements for these guarantees.

## **BATS GLOBAL MARKETS, INC. AND SUBSIDIARIES**

Notes to Consolidated Financial Statements

December 31, 2014, 2013, and 2012

As of January 12, 2015, EDGX and EDGA began routing all trades through the BATS Trading broker-dealer. DE Route will no longer be used as a routing facility for EDGX and EDGA.

On January 28, 2015, the Company entered into a definitive agreement to acquire Hotspot FX, an institutional spot foreign exchange market, in a cash transaction valued at \$365 million (the Hotspot Transaction).

During January 2015, the Company returned certain leased computer equipment used with the EDGX and EDGA platforms, which was transitioned to the BATS platform effective January 12, 2015. In connection with this return of the leased equipment a liability for the remaining fair value of the lease obligation of \$6.0 million was recorded in January 2015, as the Company no longer received economic benefit from the leased assets subsequent to the integration of the EDGX and EDGA platforms. Lease payments will continue to be made in accordance with the original lease arrangement.

Beginning in 2015, the legacy Direct Edge 401(k) plan was closed and all U.S. employees were eligible for the BATS 401(k) retirement plan.

On February 24, 2015, the Company amended its 2014 Loan in anticipation of the closing of the Hotspot Transaction (the Amended 2014 Loan). The Amended 2014 Loan increased the spread on the variable interest rate from 400 basis points to 475 basis points and required a 25 basis point amendment fee. The required annual amortization also increased from 5.0% per annum to 7.5% per annum. In addition, the Company entered into a new \$150 million 3-year term loan (the 2015 Term Loan B-1) and a new \$228 million 5-year term loan (the 2015 Term Loan B-2) and, both of which will be funded upon consummation of the Hotspot Transaction. The 2015 Term Loan B-1 has an interest rate based on 1-month LIBOR plus a spread of 375 basis points and a 100 basis point original issue discount. The 2015 Term Loan B-2 has an interest rate based on 1-month LIBOR (with floor of 100 basis points) plus a spread of 475 basis points and a 100 basis point original issue discount. In addition, the Company entered into a new \$100 million revolving credit facility with an interest rate based on 1-month LIBOR plus a spread of 350 basis points and an undrawn fee of 50 basis points and replaces the revolving credit facility under the 2014 Loan.

There have been no other subsequent events that have occurred during such period that would require disclosure in, or adjustment to, the consolidated financial statements as of and for the year ended December 31, 2014.

## Independent Auditors' Report

The Board of Directors  
BATS Exchange, Inc.:

We have audited the accompanying financial statements of BATS Exchange, Inc. (the Company), which comprise the statement of financial condition as of December 31, 2014, and the related statements of income, comprehensive income, changes in stockholder's equity, and cash flows for the year then ended, and the related notes to the financial statements.

### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditors' Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Opinion*

In our opinion, the financial statements referred to above present fairly in all material respects, the financial position of the Company as of December 31, 2014, and the results of its operations and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Notes to Financial Statements  
December 31, 2014  
(In thousands)

**(1) Nature of Operations**

BATS Exchange, Inc. (the Company or BATS), a wholly owned subsidiary of BATS Global Markets, Inc. (the Parent), is an electronic market for the trading of listed cash equity securities and listed equity options in the United States (U.S.). The Company is headquartered in the Kansas City, Missouri, area with additional offices in New York, New York, Jersey City, New Jersey, and Chicago, Illinois. In addition to equity and options trading, the Company also lists Exchange Traded Funds (ETFs) and provides market data products to its members.

**(2) Summary of Significant Accounting Policies**

**(a) Principles of Accounting**

The Company follows accounting standards established by the Financial Accounting Standards Board (FASB) to report its financial condition, results of operations and cash flows. References to accounting principles generally accepted in the U.S. (GAAP) in these footnotes are to the FASB Accounting Standards Codification (ASC or Codification).

**(b) Use of Estimates**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as well as disclosure of the amounts of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from those estimates. Material estimates that are particularly susceptible to significant change in the near term include unrecognized tax benefits.

**(c) Cash and Cash Equivalents**

The Company's cash and cash equivalents are exposed to concentrations of credit risk. The Company maintains cash at various financial institutions and brokerage firms which, at times, may be in excess of the federal depository insurance limit. The Company's management regularly monitors these institutions and believes that the potential for future loss is remote. The Company considers all liquid investments with original or acquired maturities of three months or less to be cash equivalents.

**(d) Financial Investments**

Financial investments are classified as available-for-sale.

Unrealized gains and losses, net of income taxes, are included as a component of accumulated other comprehensive income, net in the accompanying statement of financial condition.

Interest on financial investments, including amortization of premiums and accretion of discounts, is recognized as income when earned. Realized gains and losses on financial investments are calculated using the specific identification method and are included in interest and investment income in the accompanying statement of income.

**BATS EXCHANGE, INC.**  
Notes to Financial Statements  
December 31, 2014  
(In thousands)

A decline in the market value of any available-for-sale investment below carrying amount that is deemed to be other-than-temporary results in an impairment to reduce the carrying amount to realizable value. To determine whether an impairment is other-than-temporary, the Company considers all available information relevant to the collectability of the investment, including past events, current conditions, and reasonable and supportable forecasts when developing estimate of cash flows expected to be collected. Evidence considered in this assessment includes the reasons for the impairment, the severity and duration of the impairment, changes in value subsequent to year-end, forecasted performance of the investee, and the general market condition in the geographic area or industry in which the investee operates.

**(e) *Accounts Receivable, Net***

Accounts receivable represent amounts due from the Company's customers and market data distributors and are carried at cost. On a periodic basis, management evaluates the Company's receivables and determines if an allowance for uncollectible accounts receivable based on anticipated collections is required. In circumstances where a specific customer or market data distributors' inability to meet its financial obligations is probable, the Company records a specific provision for uncollectible accounts against amounts due to reduce the receivable to the amount the Company estimates will be collected.

**(f) *Property and Equipment, Net***

Property and equipment, net is stated at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated lives of the assets, generally ranging from three to seven years. Expenditures for repairs and maintenance are charged to expense as incurred.

Long-lived assets to be held and used are reviewed to determine whether any events or changes in circumstances indicate that the carrying amounts of the assets may not be recoverable. The Company bases this evaluation on such impairment indicators as the nature of the assets, the future economic benefit of the assets, any historical or future profitability measurements, as well as other external market conditions or factors that may be present. If such impairment indicators are present that would indicate that the carrying amount of any asset may not be recoverable, the Company determines whether an impairment has occurred through the use of an undiscounted cash flow analysis of the asset at the lowest level for which identifiable cash flows exist. In the event of impairment, the Company recognizes a loss for the difference between the carrying amount and the estimated value of the asset as measured using quoted market prices or, in the absence of quoted market prices, a discounted cash flow analysis.

**(g) *Income Taxes***

Deferred taxes are recorded on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards, and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

**BATS EXCHANGE, INC.**  
Notes to Financial Statements  
December 31, 2014  
(In thousands)

Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. The results of the Company's operations are included in the Parent's income tax returns. Income taxes are allocated to the Company using the pro-rata method. Tax accounts are settled periodically in accordance with the tax sharing agreement in place with the Parent.

The Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based upon the technical merits of the position. The tax benefit recognized in the financial statements from such a position is measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Also, interest and penalties expense is recognized on the full amount of deferred benefits for uncertain tax positions. The Company's policy is to include interest and penalties related to unrecognized tax benefits in the income tax provision within the statement of income.

**(h) Revenue Recognition**

**Transaction Fees and Liquidity Payments**

Under the Company's "maker-taker" pricing model, a member posting an order (the liquidity maker) is paid a rebate (recorded in liquidity payments) for an execution occurring against that order, and a member executing against an order resting on the Company's book (the liquidity taker) is charged a fee (recorded in transaction fees). Transaction fees and liquidity payments are considered earned and incurred upon execution of a trade, are recognized on a trade-date basis and are recorded on a gross basis in revenues and cost of revenues.

**Market Data Fees**

Market data fees are earned from U.S. tape plans, including the Unlisted Trading Privileges Plan (UTP), the Consolidated Tape Association Plan (CTA), and the Options Price Reporting Authority, LLC (OPRA), and also proprietary market data products. Fees collected from tape plan subscribers, net of plan costs, from UTP and CTA are allocated and distributed to plan participants according to their share of tape fees based on a formula required by Securities and Exchange Commission (SEC) Regulation NMS that takes into account both trading and quoting activity. Market data fees from OPRA are allocated based upon the share of total options transactions cleared for each of the OPRA members. The Company also charges data subscribers directly for proprietary market data. The proprietary market data fees are recognized on a monthly basis.

**Regulatory Transaction and Section 31 Fees**

The Company, as a U.S. exchange, is assessed Section 31 fees pursuant to the Securities Exchange Act of 1934, as amended (Exchange Act). Section 31 fees are assessed on the notional value traded and are designed to recover the costs to the government of supervision and regulation of securities markets and securities professionals. These fees are paid directly to the SEC by the Company. The Company, in turn, collects regulatory transaction fees from its members that are designed to equal to the Section 31 fees. The Company acts as the principal versus an agent on these transactions, and therefore these transactions are reported gross in the

**BATS EXCHANGE, INC.**  
Notes to Financial Statements  
December 31, 2014  
(In thousands)

statement of income. The Company collects the regulatory transaction fees as a pass-through charge from members executing eligible trades and recognizes these amounts in revenues, and the related Section 31 fees in cost of revenues as incurred on a settlement-date basis. Regulatory transaction fees received are included in cash and cash equivalents and financial investments in the statement of financial condition at the time of receipt. As required by law, the amount due to the SEC is remitted semiannually and recorded as Section 31 fees payable in the statement of financial condition until paid. Because the Company holds the funds received until payment is remitted to the SEC, the Company earns interest on the related balances.

**Port Fees**

Port fees are generated primarily from connectivity services related to each of the electronic markets. Port fees are recognized on a monthly basis.

**(3) Recently Issued Accounting Pronouncements**

In May 2014, the FASB issued Accounting Standards Update, or ASU, 2014-09, "Revenue from Contracts with Customers (Topic 606)," which supersedes the revenue recognition guidance in ASC 605, "Revenue Recognition." The new revenue recognition standard sets forth a five-step revenue recognition model to determine when and how revenue is recognized. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration it expects to receive in exchange for those goods or services. The standard also requires more detailed disclosures. The standard provides alternative methods of initial adoption and is effective for the Company on January 1, 2017. Early adoption is not permitted. The Company is currently assessing the impact that this standard will have on the financial statements.

**(4) Investments**

The Company's financial investments, which are classified as available-for-sale, have original or acquired maturities longer than three months, but that mature in less than one year from the statement of financial condition date are classified as current assets and are summarized as follows as of December 31, 2014:

	<u>Cost basis</u>		<u>Unrealized gains</u>		<u>Unrealized losses</u>		<u>Fair value</u>
U.S. Treasury securities	\$ 28,399	\$	—	\$	—	\$	28,399

**BATS EXCHANGE, INC.**  
Notes to Financial Statements

**(5) Accounts Payable and Accrued Liabilities**

Accounts payable and accrued liabilities consisted of the following as of December 31, 2014:

Accounts payable	\$ 19,726
Accrued liabilities	3,675
Accounts payable and accrued liabilities	<u>\$ 23,401</u>

**(6) Fair Value Measurement**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP sets out a fair value hierarchy that gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Inputs are broadly defined as assumptions market participants would use in pricing an asset or liability. The three levels of the fair value hierarchy are described below:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. The types of investments included in Level 1 include listed equities and listed derivatives.

Level 2: Inputs other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly, and fair value is determined through the use of models or other valuation methodologies. Investments that are generally included in this category include corporate bonds and loans, less liquid and restricted equity securities and certain over-the-counter derivatives. A significant adjustment to a Level 2 input could result in the Level 2 measurement becoming a Level 3 measurement.

Level 3: Inputs are unobservable for the asset or liability and include situations where there is little, if any, market activity for the asset or liability. The inputs into the determination of fair value are based upon the circumstances and the best information available at the time and may require significant management judgment or estimation. Investments that are included in this category generally include equity and debt positions in private companies.

Financial investments consist of U.S. Treasury securities. These securities are valued by obtaining feeds from a number of data sources, including active market makers and inter-dealer brokers and therefore categorized as Level 1.

The carrying amounts of cash and cash equivalents, accounts receivable, other receivables, accounts payable and Section 31 fees payable approximate fair value due to their liquid or short-term nature. Cash and cash equivalents is categorized as Level 1, while accounts receivable, other receivables, accounts payable and Section 31 fees payable are categorized as Level 2.

**(7) Related Party Transactions**

Certain affiliates of stockholders of the Parent conduct trading activity through the Company. The extent of such activity is presented in the accompanying statements of financial condition, income and cash flows.

The Company maintains brokerage accounts with a stockholder of the Parent. As of December 31, 2014, \$52,396 in cash and cash equivalents and financial investments were held in such accounts.

The Company routes certain trades to other market centers through affiliated broker-dealers. Based upon intercompany arrangements in place, the Company remits the revenue earned from customers for routing these transactions to the affiliated broker-dealers. The total expense associated with these arrangements is \$24,902 and is included in routing and clearing in the statement of income.

The Company also records expenses allocated from the Parent for various operating expenses. Similar results may not be achievable on an arm's length basis. The following table presents the Company's allocation of expenses from the Parent for the year ended December 31, 2014:

Compensation and benefits	\$ 21,012
Occupancy	1,253
Management fee	1,119
	<u>\$ 23,384</u>

The intercompany receivable balance presented on the statement of financial condition is primarily made up of a receivable from certain trading activities with the Parent and other affiliated entities.

**BATS EXCHANGE, INC.**  
Notes to Financial Statements  
December 31, 2014  
(In thousands)

**(8) Income Taxes**

Net deferred tax assets consist of the following components as of December 31, 2014:

Deferred tax assets:	
Deferred rent	\$ 1,094
Deferred revenue	290
Bad debts	27
Other assets	317
Unrecognized tax benefits	<u>2,412</u>
Total deferred tax assets	<u>4,140</u>
Deferred tax liabilities:	
Property and equipment	175
Prepaid expenses	<u>427</u>
Total deferred tax liabilities	<u>602</u>
Net deferred tax assets	<u><u>\$ 3,538</u></u>

The Company provides a valuation allowance against deferred tax assets if, based on management's assessment of historical and projected future operating results and other available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. Management believes it is more likely than not that the deferred tax assets will be realized based upon expectations of future taxable income; therefore no valuation allowance related to deferred tax assets was established as of or during the year ended December 31, 2014.

The income tax provision for the year ended December 31, 2014 consists of the following:

Current tax expense:	
Federal	\$ 20,635
State	<u>6,641</u>
Total current tax expense	27,276
Deferred income tax benefit:	
Federal	(1,448)
State	<u>(621)</u>
Income tax provision	<u><u>\$ 25,207</u></u>

**BATS EXCHANGE, INC.**  
Notes to Financial Statements  
December 31, 2014  
(In thousands)

The income tax provision differs from the amount of income tax determined by applying the U.S. federal income tax rate to income before income tax provision for the year ended December 31, 2014 due to the following:

Computed "expected" income tax provision	\$ 22,019	35.0%
(Decrease) increase in income tax resulting from:		
Section 199 benefit	(750)	(1.2)
State income taxes	2,648	4.2
Unrecognized tax benefit	1,403	2.2
Other	(113)	(0.1)
Income tax provision	\$ 25,207	40.1%

A reconciliation of the unrecognized tax benefits for the year ended December 31, 2014 is as follows:

Balance at beginning of year	\$ 5,237
Additions for current year tax positions	1,646
Additions for prior year tax positions	677
Reductions related to expirations of statute of limitations	(315)
Settlements	(960)
Balance at end of year	\$ 6,285

It is reasonably possible that the total amount of unrecognized tax benefits may decrease by approximately \$400 within the next twelve months due to expiring statutes of limitation.

At December 31, 2014, the Company had \$4,402 of unrecognized tax benefits, net of federal benefit that, if recognized, would affect the effective tax rate. The Company had accrued interest and penalties of \$530 related to unrecognized tax benefits at December 31, 2014.

The Company settled its income tax payable balance with the Parent as of December 31, 2014.

The Company's open tax years are 2011 through 2014. The Company is currently under a U.S. federal income tax examination for tax years 2011, 2012 and 2013 and under income tax examinations in certain states. The Company believes the aggregate amount of any additional liabilities that may result from these examinations, if any, will not have a material adverse effect on the financial position, results of operations, or cash flows of the Company.

*Legal Proceedings*

From time to time the Company is involved in various reviews, inspections or other legal proceedings arising in the ordinary course of business. The Company does not believe that the outcome of any of the reviews, inspections or other legal proceedings will have a material impact on the financial position, results of operations or cash flows; however, litigation is subject to many uncertainties, and the outcome of individual litigated matters is not predictable with assurance.

In complaints filed on July 22, 2009, May 11, 2010 and August 17, 2010 in the U.S. District Court for the Eastern District of Texas, Realtime Data, LLC d/b/a/ IXO (Realtime) claimed that the Company, along with certain other financial instrument exchanges, investment and commercial banking companies and financial data providers, infringed six Realtime patents by using, selling or offering for sale financial data compression products or services. On September 21, 2011, the case was transferred to the U.S. District Court for the Southern District of New York (the "Southern District"). The Court issued a final order dismissing the case on November 9, 2012. On January 27, 2014, the U.S. Court of Appeals for the Federal Circuit affirmed the entirety of the decision issued by the Court, and in March 2014 denied Realtime's request for a panel rehearing. On May 12, 2014, the Company entered into a license agreement with Realtime and settled the matter for an immaterial amount.

In a complaint originally filed on January 23, 2014 and amended on February 17, 2014 in the U.S. District Court for the District of Kansas, Leveraged Innovations LLC (LI) claimed that the Company infringed several LI patents by allowing the exchange of shares of leveraged exchange traded funds (Leveraged ETFs). On December 11, 2014, the Company entered into a Settlement and License Agreement with LI for an immaterial amount and a Stipulation of Dismissal with Prejudice was filed with the Court on December 12, 2014.

In May 2014, three class action lawsuits were filed in the Southern District by Harold Lanier against various securities exchanges, including the Company that are participants in each of the three national market system data distribution plans - CTA, UTP, and the Options Price Reporting Authority (the Plans) - which are established under the Exchange Act and regulated by the SEC. Lanier alleged that the exchange participants in the Plans breached agreements with subscribers by disseminating market data in a discriminatory manner in that other "preferred" customers allegedly received their data faster than the proposed class. The complaints sought, among other relief, unspecified compensatory damages, restitution of the putative class's subscription fees paid to the defendants, disgorgement of the fees paid by the so-called preferred customers, and injunctive and declaratory relief. On April 28, 2015, the Court filed an Opinion and Order granting the exchange defendants' Motion to Dismiss, terminating all three class action lawsuits with prejudice. On May 20, 2015, Lanier filed a notice of appeal from the Court's Opinion and Order and final Judgment of dismissal. While it is too early in the litigation to estimate any range of possible losses or predict the outcome of the case, the Company believes that these allegations are without merit and intends to vigorously defend this litigation.

As a self-regulatory organization under the jurisdiction of the SEC, the Company is subject to routine reviews and inspections by the SEC.

**BATS EXCHANGE, INC.**  
Notes to Financial Statements  
December 31, 2014  
(In thousands)

In February 2012, the Company received a written requests from the SEC's Division of Enforcement seeking documents and information related to the development, modification and use of order types, and the Company's communications with certain market participants (including certain exchange members affiliated with certain of the Parent's stockholders and directors) regarding the development, modification and use of order types; the Company's information technology systems; and trading strategies. On January 12, 2015, the Company received an Investigation Closing Letter from the SEC's Division of Enforcement. No findings were reported as a result of this investigation.

**(10) Subsequent Events**

The Company has performed an evaluation of events that have occurred subsequent to December 31, 2014 through June 24, 2015 the date the financial statements were issued.

There have been no subsequent events that have occurred during such period that would require disclosure in, or adjustment to, the financial statements as of and for the year ended December 31, 2014.

## Independent Auditors' Report

The Board of Directors  
BATS Y-Exchange, Inc.:

We have audited the accompanying financial statements of BATS Y-Exchange, Inc. (the Company), which comprise the statement of financial condition as of December 31, 2014, and the related statements of income, comprehensive income, changes in stockholder's equity, and cash flows for the year then ended, and the related notes to the financial statements.

### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditors' Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Opinion*

In our opinion, the financial statements referred to above present fairly in all material respects, the financial position of the Company as of December 31, 2014, and the results of its operations and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Notés to Financial Statements

December 31, 2014

(In thousands)

**(1) Nature of Operations**

BATS Y-Exchange, Inc. (the Company or BATS), a wholly owned subsidiary of BATS Global Markets, Inc. (the Parent), is an electronic market for the trading of listed cash equity securities in the United States (U.S.). The Company is headquartered in the Kansas City, Missouri, area with additional offices in New York, New York, Jersey City, New Jersey, and Chicago, Illinois.

**(2) Summary of Significant Accounting Policies**

**(a) Principles of Accounting**

The Company follows accounting standards established by the Financial Accounting Standards Board (FASB) to report its financial condition, results of operations and cash flows. References to accounting principles generally accepted in the U.S. (GAAP) in these footnotes are to the FASB Accounting Standards Codification (ASC or Codification).

**(b) Use of Estimates**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as well as disclosure of the amounts of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from those estimates. Material estimates that are particularly susceptible to significant change in the near term include unrecognized tax benefits.

**(c) Cash and Cash Equivalents**

The Company's cash and cash equivalents are exposed to concentrations of credit risk. The Company maintains cash at various financial institutions and brokerage firms which, at times, may be in excess of the federal depository insurance limit. The Company's management regularly monitors these institutions and believes that the potential for future loss is remote. The Company considers all liquid investments with original or acquired maturities of three months or less to be cash equivalents.

**(d) Financial Investments**

Financial investments are classified as available-for-sale.

Unrealized gains and losses, net of income taxes, are included as a component of accumulated other comprehensive income, net in the accompanying statement of financial condition.

Interest on financial investments, including amortization of premiums and accretion of discounts, is recognized as income when earned. Realized gains and losses on financial investments are calculated using the specific identification method and are included in interest and investment income in the accompanying statement of income.

A decline in the market value of any available-for-sale investment below carrying amount that is deemed to be other-than-temporary results in an impairment to reduce the carrying amount to realizable value. To determine whether an impairment is other-than-temporary, the Company considers all available information relevant to the collectability of the investment, including past

**BATS Y-EXCHANGE, INC.**

Notes to Financial Statements

December 31, 2014

(In thousands)

events, current conditions, and reasonable and supportable forecasts when developing estimate of cash flows expected to be collected. Evidence considered in this assessment includes the reasons for the impairment, the severity and duration of the impairment, changes in value subsequent to year-end, forecasted performance of the investee, and the general market condition in the geographic area or industry in which the investee operates.

**(e) *Accounts Receivable, Net***

Accounts receivable represent amounts due from the Company's customers and market data distributors and are carried at cost. On a periodic basis, management evaluates the Company's receivables and determines if an allowance for uncollectible accounts receivable based on anticipated collections is required. In circumstances where a specific customer or market data distributors' inability to meet its financial obligations is probable, the Company records a specific provision for uncollectible accounts against amounts due to reduce the receivable to the amount the Company estimates will be collected.

**(f) *Property and Equipment, Net***

Property and equipment, net is stated at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated lives of the assets, generally ranging from three to seven years. Expenditures for repairs and maintenance are charged to expense as incurred.

Long-lived assets to be held and used are reviewed to determine whether any events or changes in circumstances indicate that the carrying amounts of the assets may not be recoverable. The Company bases this evaluation on such impairment indicators as the nature of the assets, the future economic benefit of the assets, any historical or future profitability measurements, as well as other external market conditions or factors that may be present. If such impairment indicators are present that would indicate that the carrying amount of any asset may not be recoverable, the Company determines whether an impairment has occurred through the use of an undiscounted cash flow analysis of the asset at the lowest level for which identifiable cash flows exist. In the event of impairment, the Company recognizes a loss for the difference between the carrying amount and the estimated value of the asset as measured using quoted market prices or, in the absence of quoted market prices, a discounted cash flow analysis.

**(g) *Income Taxes***

Deferred taxes are recorded on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards, and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. The results of the Company's operations are included in the Parent's income tax returns. Income taxes are allocated to the Company using the pro-rata method. Tax accounts are settled periodically in accordance with the tax sharing agreement in place with the Parent.

**BATS Y-EXCHANGE, INC.**

Notes to Financial Statements

December 31, 2014

(In thousands)

The Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based upon the technical merits of the position. The tax benefit recognized in the financial statements from such a position is measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Also, interest and penalties expense is recognized on the full amount of deferred benefits for uncertain tax positions. The Company's policy is to include interest and penalties related to unrecognized tax benefits in the income tax provision within the statement of income.

**(h) Revenue Recognition**

**Transaction Fees and Liquidity Payments**

Under the Company's "taker-maker" pricing model, a liquidity taker is paid a rebate (recorded in liquidity payments) for an execution occurring against that order and a liquidity maker is charged a fee (recorded in transaction fees) for posting such an order. Transaction fees and liquidity payments are considered earned and incurred upon execution of a trade, are recognized on a trade-date basis and are recorded on a gross basis in revenues and cost of revenues.

**Market Data Fees**

Market data fees are earned from U.S. tape plans, including the Unlisted Trading Privileges Plan (UTP), and the Consolidated Tape Association Plan (CTA), and also proprietary market data products. Fees collected from tape plan subscribers, net of plan costs, from UTP and CTA are allocated and distributed to plan participants according to their share of tape fees based on a formula required by Securities and Exchange Commission (SEC) Regulation NMS that takes into account both trading and quoting activity. The Company also charges data subscribers directly for proprietary market data. The proprietary market data fees are recognized on a monthly basis.

**Regulatory Transaction and Section 31 Fees**

The Company, as a U.S. exchange, is assessed Section 31 fees pursuant to the Securities Exchange Act of 1934, as amended (Exchange Act). Section 31 fees are assessed on the notional value traded and are designed to recover the costs to the government of supervision and regulation of securities markets and securities professionals. These fees are paid directly to the SEC by the Company. The Company, in turn, collects regulatory transaction fees from its members that are designed to equal to the Section 31 fees. The Company acts as the principal versus an agent on these transactions, and therefore these transactions are reported gross in the statement of income. The Company collects the regulatory transaction fees as a pass-through charge from members executing eligible trades and recognizes these amounts in revenues, and the related Section 31 fees in cost of revenues as incurred on a settlement-date basis. Regulatory transaction fees received are included in cash and cash equivalents and financial investments in the statement of financial condition at the time of receipt. As required by law, the amount due to the SEC is remitted semiannually and recorded as Section 31 fees payable in the statement of financial condition until paid. Because the Company holds the funds received until payment is remitted to the SEC, the Company earns interest on the related balances.

(In thousands)

**Port Fees**

Port fees are generated primarily from connectivity services related to each of the electronic markets. Port fees are recognized on a monthly basis.

**(3) Recently Issued Accounting Pronouncements**

In May 2014, the FASB issued Accounting Standards Update, or ASU, 2014-09, "Revenue from Contracts with Customers (Topic 606)," which supersedes the revenue recognition guidance in ASC 605, "Revenue Recognition." The new revenue recognition standard sets forth a five-step revenue recognition model to determine when and how revenue is recognized. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration it expects to receive in exchange for those goods or services. The standard also requires more detailed disclosures. The standard provides alternative methods of initial adoption and is effective for the Company on January 1, 2017. Early adoption is not permitted. The Company is currently assessing the impact that this standard will have on the financial statements.

**(4) Investments**

The Company's financial investments, which are classified as available-for-sale, have original or acquired maturities longer than three months, but mature in less than one year from the statement of financial condition date are classified as current assets and are summarized as follows as of December 31, 2014:

	Cost basis	Unrealized gains	Unrealized losses	Fair value
U.S. Treasury securities	\$ 9,500	\$ —	\$ —	\$ 9,500

**(5) Accounts Payable and Accrued Liabilities**

Accounts payable and accrued liabilities consisted of the following as of December 31, 2014:

Accounts payable	\$ 4,560
Accrued liabilities	103
Accounts payable and accrued liabilities	\$ 4,663

**(6) Fair Value Measurement**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP sets out a fair value hierarchy that gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Inputs are broadly defined

**BATS Y-EXCHANGE, INC.**

Notes to Financial Statements

December 31, 2014

(In thousands)

as assumptions market participants would use in pricing an asset or liability. The three levels of the fair value hierarchy are described below:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. The types of investments included in Level 1 include listed equities and listed derivatives.

Level 2: Inputs other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly, and fair value is determined through the use of models or other valuation methodologies. Investments that are generally included in this category include corporate bonds and loans, less liquid and restricted equity securities and certain over-the-counter derivatives. A significant adjustment to a Level 2 input could result in the Level 2 measurement becoming a Level 3 measurement.

Level 3: Inputs are unobservable for the asset or liability and include situations where there is little, if any, market activity for the asset or liability. The inputs into the determination of fair value are based upon the circumstances and the best information available at the time and may require significant management judgment or estimation. Investments that are included in this category generally include equity and debt positions in private companies.

Financial investments consist of U.S. Treasury securities. These securities are valued by obtaining feeds from a number of data sources, including active market makers and inter-dealer brokers and therefore categorized as Level 1.

The carrying amounts of cash and cash equivalents, accounts receivable, other receivables, accounts payable and Section 31 fees payable approximate fair value due to their liquid or short-term nature. Cash and cash equivalents is categorized as Level 1, while accounts receivable, other receivables, accounts payable and Section 31 fees payable are categorized as Level 2.

**(7) Related Party Transactions**

Certain affiliates of stockholders of the Parent conduct trading activity through the Company. The extent of such activity is presented in the accompanying statements of financial condition, income and cash flows.

The Company maintains brokerage accounts containing cash and investments with a stockholder of the Parent. As of December 31, 2014, \$15,863 in cash and cash equivalents and financial investments were held in such accounts.

The Company routes certain trades to other market centers through affiliated broker-dealers. Based upon intercompany arrangements in place, the Company remits the revenue earned from customers for routing these transactions to the affiliated broker-dealers. The total expense associated with these arrangements is \$9,643 and is included in routing and clearing in the statement of income.

**BATS Y-EXCHANGE, INC.**  
Notes to Financial Statements  
December 31, 2014  
(In thousands)

The Company also records expenses allocated from the Parent and other affiliated subsidiaries of the Parent for various operating expenses. Similar results may not be achievable on an arm's length basis. The following table presents the Company's allocation of expenses from the Parent and other affiliated subsidiaries for the year ended December 31, 2014:

Compensation and benefits	\$	6,614
Systems and data communication		1,440
Occupancy		395
Professional and contract services		633
Regulatory costs		1,871
Management fee		187
General and administrative		1,153
	\$	<u>12,293</u>

The intercompany receivable balance presented on the statement of financial condition is primarily made up of a receivable from certain trading activities with the Parent and other affiliated entities.

**(8) Income Taxes**

Net deferred tax assets consist of the following components as of December 31, 2014:

Deferred tax assets:		
Start-up expenditures	\$	154
Deferred revenue		145
Bad debts		12
Other assets		21
Unrecognized tax benefits		388
Total deferred tax assets		<u>720</u>
Deferred tax liabilities:		
Property and equipment		115
Prepaid expenses		40
Total deferred tax liabilities		<u>155</u>
Net deferred tax assets	\$	<u>565</u>

The Company provides a valuation allowance against net deferred tax assets if, based on management's assessment of historical and projected future operating results and other available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. Management believes it is more likely than not that the deferred tax assets will be realized based upon expectations of future

(In thousands)

taxable income; therefore no valuation allowance related to deferred tax assets was established as of or during the year ended December 31, 2014.

The income tax provision for the year ended December 31, 2014 consists of the following:

Current tax expense:	
Federal	\$ 5,748
State	<u>1,557</u>
Total current tax expense	7,305
Deferred income tax benefit:	
Federal	(416)
State	<u>(80)</u>
Income tax provision	<u><u>\$ 6,809</u></u>

The income tax provision differs from the amount of income tax determined by applying the U.S. federal income tax rate to income before income tax provision for the year ended December 31, 2014 due to the following:

Computed "expected" income tax provision	\$ 6,018	35.0%
(Decrease) increase in income tax resulting from:		
Section 199 benefit	(170)	(1.0)
State income taxes	681	4.0
Unrecognized tax benefits	291	1.7
Other	<u>(11)</u>	<u>(0.1)</u>
Income tax provision	<u><u>\$ 6,809</u></u>	<u><u>39.6%</u></u>

A reconciliation of the unrecognized tax benefits for the year ended December 31, 2014 is as follows:

Balance at beginning of year	\$ 626
Additions for current year tax positions	360
Additions for prior year tax positions	116
Reductions for prior year tax positions	(68)
Reductions related to expirations of statute of limitations	<u>(4)</u>
Balance at end of year	<u><u>\$ 1,030</u></u>

It is reasonably possible that the total amount of unrecognized tax benefits may decrease by approximately \$30 within the next twelve months due to expiring statutes of limitation.

**BATS Y-EXCHANGE, INC.**  
Notes to Financial Statements  
December 31, 2014  
(In thousands)

At December 31, 2014, the Company had \$711 of unrecognized tax benefits, net of federal benefit that, if recognized, would affect the effective tax rate. The Company had accrued interest and penalties of \$69 related to unrecognized tax benefits at December 31, 2014.

The Company settled its income tax payable balance with the Parent as of December 31, 2014.

The Company's open tax years are 2011 through 2014. The Company is currently under a U.S. federal income tax examination for tax years 2011, 2012 and 2013 and under income tax examinations in certain states. The Company believes the aggregate amount of any additional liabilities that may result from these examinations, if any, will not have a material adverse effect on the financial position, results of operations, or cash flows of the Company.

**(9) Commitments and Contingencies**

*Legal Proceedings*

From time to time the Company is involved in various reviews, inspections, or other legal proceedings arising in the ordinary course of business. The Company does not believe that the outcome of any of the reviews, inspections or other legal proceedings will have a material impact on the financial position, results of operations or cash flows; however, litigation is subject to many uncertainties, and the outcome of individual litigated matters is not predictable with assurance.

In May 2014, three class action lawsuits were filed in the Southern District by Harold Lanier against various securities exchanges, including the Company, that are participants in each of the three national market system data distribution plans - the CTA, the UTP, and the Options Price Reporting Authority (the Plans) - which are established under the Exchange Act and regulated by the SEC. Lanier alleged that the exchange participants in the Plans breached agreements with subscribers by disseminating market data in a discriminatory manner in that other "preferred" customers allegedly received their data faster than the proposed class. The complaints sought, among other relief, unspecified compensatory damages, restitution of the putative class's subscription fees paid to the defendants, disgorgement of the fees paid by the so-called preferred customers, and injunctive and declaratory relief. On April 28, 2015, the Court filed an Opinion and Order granting the exchange defendants' Motion to Dismiss, terminating all three class action lawsuits with prejudice. On May 20, 2015, Lanier filed a notice of appeal from the Court's Opinion and Order and final Judgment of dismissal. While it is too early in the litigation to estimate any range of possible losses or predict the outcome of the case, the Company believes that these allegations are without merit and intends to vigorously defend this litigation.

As a self-regulatory organization under the jurisdiction of the SEC, the Company is subject to routine reviews and inspections by the SEC.

In February 2012, the Company received a written requests from the SEC's Division of Enforcement seeking documents and information related to the development, modification and use of order types, and the Company's communications with certain market participants (including certain exchange members affiliated with certain of the Parent's stockholders and directors) regarding the development, modification and use of order types; the Company's information technology systems; and trading strategies. On January 12, 2015, the Company received an Investigation Closing Letter from the SEC's Division of Enforcement. There were no findings as a result of this investigation.

The Company has performed an evaluation of events that have occurred subsequent to December 31, 2014 through June 24, 2015 the date the financial statements were issued.

There have been no subsequent events that have occurred during such period that would require disclosure in, or adjustment to, the financial statements as of and for the year ended December 31, 2014.

## Independent Auditors' Report

The Board of Directors  
EDGA Exchange, Inc.:

We have audited the accompanying financial statements of EDGA Exchange, Inc. (the Company), which comprise the statement of financial condition as of December 31, 2014, and the related statements of income, comprehensive income, changes in stockholder's equity, and cash flows for the eleven months then ended, and the related notes to the financial statements.

### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditors' Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Opinion*

In our opinion, the financial statements referred to above present fairly in all material respects, the financial position of the Company as of December 31, 2014, and the results of its operations and its cash flows for the eleven months then ended in accordance with U.S. generally accepted accounting principles.

**EDGA EXCHANGE, INC.**  
Notes to Financial Statements  
(In thousands)

**(1) Nature of Operations**

EDGA Exchange, Inc. (the Company or EDGA), a wholly owned subsidiary of BATS Global Markets, Inc. (BATS), is an electronic market for the trading of listed cash equity securities in the United States (U.S.). The Company is headquartered in the Kansas City, Missouri, area with additional offices in New York, New York, Jersey City, New Jersey, and Chicago, Illinois. On January 31, 2014 (the Acquisition Date), the Company's parent, Direct Edge Holdings LLC (Direct Edge), was acquired by BATS. The statement of income includes results of operations for the eleven month period beginning February 1, 2014 through December 31, 2014.

**(2) Summary of Significant Accounting Policies**

**(a) Principles of Accounting**

The Company follows accounting standards established by the Financial Accounting Standards Board (FASB) to report its financial condition, results of operations and cash flows. References to accounting principles generally accepted in the U.S. (GAAP) in these footnotes are to the FASB Accounting Standards Codification (ASC or Codification).

**(b) Use of Estimates**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as well as disclosure of the amounts of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from those estimates. Material estimates that are particularly susceptible to significant change in the near term include unrecognized tax benefits.

**(c) Cash and Cash Equivalents**

The Company's cash and cash equivalents are exposed to concentrations of credit risk. The Company maintains cash at various financial institutions and brokerage firms which, at times, may be in excess of the federal depository insurance limit. The Company's management regularly monitors these institutions and believes that the potential for future loss is remote. The Company considers all liquid investments with original or acquired maturities of three months or less to be cash equivalents.

**(d) Financial Investments**

Financial investments are classified as available-for-sale.

Unrealized gains and losses, net of income taxes, are included as a component of accumulated other comprehensive income, net in the accompanying statement of financial condition.

Interest on financial investments, including amortization of premiums and accretion of discounts, is recognized as income when earned. Realized gains and losses on financial investments are calculated using the specific identification method and are included in interest and investment income in the accompanying statement of income.

A decline in the market value of any available-for-sale investment below carrying amount that is deemed to be other-than-temporary results in an impairment to reduce the carrying amount to

**EDGA EXCHANGE, INC.**  
Notes to Financial Statements  
(In thousands)

realizable value. To determine whether an impairment is other-than-temporary, the Company considers all available information relevant to the collectability of the investment, including past events, current conditions, and reasonable and supportable forecasts when developing estimate of cash flows expected to be collected. Evidence considered in this assessment includes the reasons for the impairment, the severity and duration of the impairment, changes in value subsequent to year-end, forecasted performance of the investee, and the general market condition in the geographic area or industry in which the investee operates.

**(e) Accounts Receivable, Net**

Accounts receivable represent amounts due from the Company's customers and market data distributors and are carried at cost. On a periodic basis, management evaluates the Company's receivables and determines if an allowance for uncollectible accounts receivable based on anticipated collections is required. In circumstances where a specific customer or market data distributors' inability to meet its financial obligations is probable, the Company records a specific provision for uncollectible accounts against amounts due to reduce the receivable to the amount the Company estimates will be collected.

**(f) Income Taxes**

Deferred taxes are recorded on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards, and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. The results of the Company's operations are included in BATS' income tax returns. Income taxes are allocated to the Company using the pro-rata method. Tax accounts are settled periodically in accordance with the tax sharing agreement in place with BATS.

The Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based upon the technical merits of the position. The tax benefit recognized in the financial statements from such a position is measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Also, interest and penalties expense is recognized on the full amount of deferred benefits for uncertain tax positions. The Company's policy is to include interest and penalties related to unrecognized tax benefits in the income tax provision within the statement of income.

**(g) Revenue Recognition**

**Transaction Fees and Liquidity Payments**

Under the Company's "taker-maker" pricing model, a liquidity taker is paid a rebate (recorded in liquidity payments) for an execution occurring against that order and a liquidity maker is charged a fee (recorded in transaction fees) for posting such an order. Transaction fees and liquidity payments are considered earned and incurred upon execution of a trade and are recognized on a trade-date basis and are recorded on a gross basis in revenues and cost of revenues.

**EDGA EXCHANGE, INC.**  
Notes to Financial Statements  
(In thousands)

**Market Data Fees**

Market data fees are earned from U.S. tape plans, including the Unlisted Trading Privileges Plan (UTP) and the Consolidated Tape Association Plan (CTA), and also proprietary market data products. Fees collected from tape plan subscribers, net of plan costs, from UTP and CTA are allocated and distributed to plan participants according to their share of tape fees based on a formula required by Securities and Exchange Commission (SEC) Regulation NMS that takes into account both trading and quoting activity. The Company also charges data subscribers directly for proprietary market data. The proprietary market data fees are recognized on a monthly basis.

**Regulatory Transaction and Section 31 Fees**

The Company, as a U.S. exchange, is assessed Section 31 fees pursuant to the Securities Exchange Act of 1934, as amended (Exchange Act). Section 31 fees are assessed on the notional value traded and are designed to recover the costs to the government of supervision and regulation of securities markets and securities professionals. These fees are paid directly to the SEC by the Company. The Company, in turn, collects regulatory transaction fees from its members that are designed to equal to the Section 31 fees. The Company acts as the principal versus an agent on these transactions, and therefore these transactions are reported gross in the statement of income. The Company collects the regulatory transaction fees as a pass-through charge from members executing eligible trades and recognizes these amounts in revenues, and the related Section 31 fees in cost of revenues as incurred on a settlement-date basis. Regulatory transaction fees received are included in cash and cash equivalents and financial investments in the statement of financial condition at the time of receipt. As required by law, the amount due to the SEC is remitted semiannually and recorded as Section 31 fees payable in the statement of financial condition until paid. Because the Company holds the funds received until payment is remitted to the SEC, the Company earns interest on the related balances.

**Port Fees**

Port fees are generated primarily from connectivity services related to each of the electronic markets. Port fees are recognized on a monthly basis.

**(3) Recently Issued Accounting Pronouncements**

In May 2014, the FASB issued Accounting Standards Update, or ASU, 2014-09, "Revenue from Contracts with Customers (Topic 606)," which supersedes the revenue recognition guidance in ASC 605, "Revenue Recognition." The new revenue recognition standard sets forth a five-step revenue recognition model to determine when and how revenue is recognized. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration it expects to receive in exchange for those goods or services. The standard also requires more detailed disclosures. The standard provides alternative methods of initial adoption and is effective for the Company on January 1, 2017. Early adoption is not permitted. The Company is currently assessing the impact that this standard will have on the financial statements.

**EDGA EXCHANGE, INC.**  
Notes to Financial Statements  
(In thousands)

**(4) Investments**

The Company's financial investments with original or acquired maturities longer than three months, but that mature in less than one year from the statement of financial condition date are classified as current assets and are summarized as follows as of December 31, 2014:

	<u>Cost basis</u>	<u>Unrealized gains</u>	<u>Unrealized losses</u>	<u>Fair value</u>
U.S. Treasury securities	\$ 7,300	\$ —	\$ —	\$ 7,300

**(5) Accounts Payable and Accrued Liabilities**

Accounts payable and accrued liabilities consisted of the following as of December 31, 2014:

Accounts payable	\$ 230
Accrued liabilities	<u>7,000</u>
Accounts payable and accrued liabilities	<u>\$ 7,230</u>

**(6) Fair Value Measurement**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP sets out a fair value hierarchy that gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Inputs are broadly defined as assumptions market participants would use in pricing an asset or liability. The three levels of the fair value hierarchy are described below:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. The types of investments included in Level 1 include listed equities and listed derivatives.

Level 2: Inputs other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly, and fair value is determined through the use of models or other valuation methodologies. Investments that are generally included in this category include corporate bonds and loans, less liquid and restricted equity securities and certain over-the-counter derivatives. A significant adjustment to a Level 2 input could result in the Level 2 measurement becoming a Level 3 measurement.

Level 3: Inputs are unobservable for the asset or liability and include situations where there is little, if any, market activity for the asset or liability. The inputs into the determination of fair value are based upon the circumstances and the best information available at the time and may require significant management judgment or estimation. Investments that are included in this category generally include equity and debt positions in private companies.

Financial investments consist of U.S. Treasury securities. These securities are valued by obtaining feeds from a number of data sources, including active market makers and inter-dealer brokers and therefore categorized as Level 1.

**EDGA EXCHANGE, INC.**  
Notes to Financial Statements  
(In thousands)

The carrying amounts of cash and cash equivalents, accounts receivable, other receivables, accounts payable and Section 31 fees payable approximate fair value due to their liquid or short-term nature. Cash and cash equivalents is categorized as Level 1, while accounts receivable, other receivables, accounts payable and Section 31 fees payable are categorized as Level 2.

**(7) Related Party Transactions**

Certain affiliates of stockholders of BATS conduct trading activity through the Company. The extent of such activity is presented in the accompanying statements of financial condition, income and cash flows.

The Company maintains brokerage accounts with a stockholder of BATS. As of December 31, 2014, \$10,033 in cash and cash equivalents and financial investments were held in such accounts.

The Company routes certain trades to other market centers through affiliated broker-dealers. Based upon intercompany arrangements in place, the Company remits the revenue earned from customers for routing these transactions to the affiliated broker-dealers. The total expense associated with this arrangement is \$24,739 and is included in routing and clearing in the statement of income.

The Company also records expenses allocated from BATS for various operating expenses. Similar results may not be achievable on an arm's length basis. The following table presents the Company's allocation of expenses from BATS for the eleven months ended December 31, 2014:

Compensation and benefits	\$ 11,659
Systems and data communication	2,949
Occupancy	485
Professional and contract services	403
Regulatory costs	1,030
Management fee	4,601
General and administrative	3,694
	<u>\$ 24,821</u>

The intercompany receivable balance presented on the statement of financial condition is primarily made up of a receivable from certain trading activities with the Parent and other affiliated entities.

**EDGA EXCHANGE, INC.**  
Notes to Financial Statements  
(In thousands)

**(8) Income Taxes**

Net deferred tax assets consist of the following components as of December 31, 2014:

Deferred tax assets:	
State net operating losses	\$ 681
Deferred revenue	134
Bad debts	4
Unrecognized tax benefits	<u>26</u>
Total deferred tax assets	<u><u>845</u></u>

The Company provides a valuation allowance against deferred tax assets if, based on management's assessment of historical and projected future operating results and other available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. As of December 31, 2014, the Company has state net operating loss carryforwards of approximately \$11,200 for tax purposes, which will be available to offset future taxable income. If not used, these carryforwards will expire beginning in 2026. Certain of the net operating losses are subject to limitations caused by a change in ownership. The Company anticipates that all state net operating losses will be utilized prior to expiration. Management believes it is more likely than not that the deferred tax assets will be realized based upon expectations of future taxable income; therefore no valuation allowance related to deferred tax amounts was established as of or during the eleven months ended December 31, 2014.

The income tax provision for the eleven months ended December 31, 2014 consists of the following:

Current tax expense:	
Federal	\$ 4,532
State	<u>1,071</u>
Total current tax expense	5,603
Deferred income tax (benefit) expense:	
Federal	(12)
State	<u>567</u>
Income tax provision	<u><u>\$ 6,158</u></u>

**EDGA EXCHANGE, INC.**  
Notes to Financial Statements  
(In thousands)

The income tax provision differs from the amount of income tax determined by applying the U.S. federal income tax rate to income before income tax provision for the eleven months ended December 31, 2014 due to the following:

Computed "expected" income tax provision	\$ 5,262	35.0%
(Decrease) increase in income tax resulting from:		
Section 199 benefit	(156)	(1.0)
State income taxes	1,018	6.8
Unrecognized tax benefits	14	0.1
Other	20	0.1
Income tax provision	<u>\$ 6,158</u>	<u>41.0%</u>

A reconciliation of the unrecognized tax benefits for the eleven months ended December 31, 2014 is as follows:

Balance at January 31, 2014	\$ 166
Additions for current year tax positions	—
Additions for prior year tax positions	43
Reductions for prior year tax positions	(90)
Reductions due to settlements	(26)
Balance at December 31, 2014	<u>\$ 93</u>

It is reasonably possible that the total amount of unrecognized tax benefits may decrease by approximately \$8 within the next twelve months due to expiring statutes of limitation.

At December 31, 2014, the Company had \$90 of unrecognized tax benefits, net of federal benefit that, if recognized, would affect the effective tax rate. The Company had accrued interest and penalties of \$23 related to uncertain tax positions at December 31, 2014.

The Company's open tax years are 2011 through 2014. The Company is currently under a U.S. federal income tax examination for tax years 2012, 2013 and the short-period ended January 31, 2014. The Company is also under income tax examinations in certain states. The Company believes the aggregate amount of any additional liabilities that may result from these examinations, if any, will not have a material adverse effect on the financial position, results of operations, or cash flows of the Company.

**(9) Commitments and Contingencies**

***Legal Proceedings***

From time to time the Company is involved in various reviews, inspections or other legal proceedings arising in the ordinary course of business. The Company does not believe that the outcome of any of the reviews, inspections or other legal proceedings will have a material impact on the financial position,

**EDGA EXCHANGE, INC.**  
Notes to Financial Statements  
(In thousands)

results of operations or cash flows; however, litigation is subject to many uncertainties, and the outcome of individual litigated matters is not predictable with assurance.

In May 2014, three class action lawsuits were filed in the Southern District by Harold Lanier against various securities exchanges, including the Company, that are participants in each of the three national market system data distribution plans – the CTA, the UTP Plan, and the Options Price Reporting Authority (the Plans) - which are established under the Exchange Act and regulated by the SEC. Lanier alleged that the exchange participants in the Plans breached agreements with subscribers by disseminating market data in a discriminatory manner in that other “preferred” customers allegedly received their data faster than the proposed class. The complaints sought, among other relief, unspecified compensatory damages, restitution of the putative class’s subscription fees paid to the defendants, disgorgement of the fees paid by the so-called preferred customers, and injunctive and declaratory relief. On April 28, 2015, the Court filed an Opinion and Order granting the exchange defendants’ Motion to Dismiss, terminating all three class action lawsuits with prejudice. On May 20, 2015, Lanier filed a notice of appeal from the Court’s Opinion and Order and final Judgment of dismissal. While it is too early in the litigation to estimate any range of possible losses or predict the outcome of the case, the Company believes that these allegations are without merit and intends to vigorously defend this litigation.

As a self-regulatory organization under the jurisdiction of the SEC, the Company is subject to routine reviews and inspections by the SEC.

In February 2012, the Company received a written request from the SEC’s Division of Enforcement seeking documents and information related to the development, modification and use of order types, and the Company’s communications with certain market participants (including certain exchange members affiliated with certain of Direct Edge’s stockholders and directors) regarding the development, modification and use of order types; the Company’s information technology systems; and trading strategies. On January 12, 2015, the SEC’s Division of Enforcement announced an Order Instituting Administrative Cease-and-Desist Proceedings and Imposing Remedial Sanctions against EDGA Exchange, Inc. and an affiliate (the Exchanges) in which the Exchanges entered into a settlement agreement with the Commission, without admitting or denying the allegations, agreeing to pay a fine in the amount of \$14,000 and comply with certain undertakings. The fine was paid to the SEC on January 13, 2015 by the Exchanges. The settlement arrangement named both of the Exchanges; therefore, the fine was proportionately allocated between the Company and its affiliate. Furthermore, BATS indemnified the Exchanges against the full amount of the SEC fine. Consequently, the Company recorded an intercompany receivable and a corresponding payable to the SEC of \$7,000. The other affiliate named in the settlement arrangement recorded the remaining \$7,000 of the aforementioned fine.

**(10) Subsequent Events**

The Company has performed an evaluation of events that have occurred subsequent to December 31, 2014 through June 24, 2015 the date the financial statements were issued.

As of January 12, 2015, the Company’s exchange operations were migrated to a new technology platform. In conjunction with this migration, the Company began routing all trades through the Parent’s affiliated broker-dealer. The Company will no longer route trades through its legacy affiliated broker-dealer.

**EDGA EXCHANGE, INC.**  
Notes to Financial Statements

There have been no other subsequent events that have occurred during such period that would require disclosure in, or adjustment to, the financial statements as of and for the year ended December 31, 2014.

## Independent Auditors' Report

The Board of Directors  
EDGX Exchange, Inc.:

We have audited the accompanying financial statements of EDGX Exchange, Inc. (the Company), which comprise the statement of financial condition as of December 31, 2014, and the related statements of operations, comprehensive loss, changes in stockholder's equity, and cash flows for the eleven months then ended, and the related notes to the financial statements.

### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditors' Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Opinion*

In our opinion, the financial statements referred to above present fairly in all material respects, the financial position of the Company as of December 31, 2014, and the results of its operations and its cash flows for the eleven months then ended in accordance with U.S. generally accepted accounting principles.

Notes to Financial Statements

**(1) Nature of Operations**

EDGX Exchange, Inc. (the Company or EDGX), a wholly owned subsidiary of BATS Global Markets, Inc. (BATS), is an electronic market for the trading of listed cash equity securities in the United States (U.S.). The Company is headquartered in the Kansas City, Missouri, area with additional offices in New York, New York, Jersey City, New Jersey, and Chicago, Illinois. On January 31, 2014 (the Acquisition Date), the Company's parent, Direct Edge Holdings LLC (Direct Edge), was acquired by BATS. The statement of operations includes results of operations for the eleven month period beginning February 1, 2014 through December 31, 2014.

**(2) Summary of Significant Accounting Policies**

**(a) Principles of Accounting**

The Company follows accounting standards established by the Financial Accounting Standards Board (FASB) to report its financial condition, results of operations and cash flows. References to accounting principles generally accepted in the U.S. (GAAP) in these footnotes are to the FASB Accounting Standards Codification (ASC or Codification).

**(b) Use of Estimates**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as well as disclosure of the amounts of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from those estimates. Material estimates that are particularly susceptible to significant change in the near term include unrecognized tax benefits.

**(c) Cash and Cash Equivalents**

The Company's cash and cash equivalents are exposed to concentrations of credit risk. The Company maintains cash at various financial institutions and brokerage firms which, at times, may be in excess of the federal depository insurance limit. The Company's management regularly monitors these institutions and believes that the potential for future loss is remote. The Company considers all liquid investments with original or acquired maturities of three months or less to be cash equivalents.

**(d) Restricted Cash**

The Company classifies cash not available for immediate use due to regulatory and other requirements as restricted cash, and presents it separately on the statement of financial condition.

**(e) Financial Investments**

Financial investments are classified as available-for-sale.

Unrealized gains and losses, net of income taxes, are included as a component of accumulated other comprehensive income, net in the accompanying statement of financial condition.

Interest on financial investments, including amortization of premiums and accretion of discounts, is recognized as income when earned. Realized gains and losses on financial investments are

**EDGX EXCHANGE, INC.**  
Notes to Financial Statements  
(In thousands)

calculated using the specific identification method and are included in interest and investment income in the accompanying statement of operations.

A decline in the market value of any available-for-sale investment below carrying amount that is deemed to be other-than-temporary results in an impairment to reduce the carrying amount to realizable value. To determine whether an impairment is other-than-temporary, the Company considers all available information relevant to the collectability of the investment, including past events, current conditions, and reasonable and supportable forecasts when developing estimate of cash flows expected to be collected. Evidence considered in this assessment includes the reasons for the impairment, the severity and duration of the impairment, changes in value subsequent to year-end, forecasted performance of the investee, and the general market condition in the geographic area or industry in which the investee operates.

**(f) *Accounts Receivable, Net***

Accounts receivable represent amounts due from the Company's customers and market data distributors and are carried at cost. On a periodic basis, management evaluates the Company's receivables and determines if an allowance for uncollectible accounts receivable based on anticipated collections is required. In circumstances where a specific customer or market data distributors' inability to meet its financial obligations is probable, the Company records a specific provision for uncollectible accounts against amounts due to reduce the receivable to the amount the Company estimates will be collected.

**(g) *Income Taxes***

Deferred taxes are recorded on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards, and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. The results of the Company's operations are included in BATS' income tax returns. Income taxes are allocated to the Company using the pro-rata method. Tax accounts are settled periodically in accordance with the tax sharing agreement in place with BATS.

The Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based upon the technical merits of the position. The tax benefit recognized in the financial statements from such a position is measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Also, interest and penalties expense is recognized on the full amount of deferred benefits for uncertain tax positions. The Company's policy is to include interest and penalties related to unrecognized tax benefits in the income tax benefit within the statement of operations.

**EDGX EXCHANGE, INC.**  
Notes to Financial Statements

**(h) Revenue Recognition**

**Transaction Fees and Liquidity Payments**

Under the Company's "maker-taker" pricing model, a member posting an order (the liquidity maker) is paid a rebate (recorded in liquidity payments) for an execution occurring against that order, and a member executing against an order resting on the Company's book (the liquidity taker) is charged a fee (recorded in transaction fees). Transaction fees and liquidity payments are considered earned and incurred upon execution of a trade, are recognized on a trade-date basis and are recorded on a gross basis in revenues and cost of revenues.

**Market Data Fees**

Market data fees are earned from U.S. tape plans, including the Unlisted Trading Privileges Plan (UTP) and the Consolidated Tape Association Plan (CTA), and also proprietary market data products. Fees collected from tape plan subscribers, net of plan costs, from UTP and CTA are allocated and distributed to plan participants according to their share of tape fees based on a formula required by Securities and Exchange Commission (SEC) Regulation NMS that takes into account both trading and quoting activity. The Company also charges data subscribers directly for proprietary market data. The proprietary market data fees are recognized on a monthly basis.

**Regulatory Transaction and Section 31 Fees**

The Company, as a U.S. exchange, is assessed Section 31 fees pursuant to the Securities Exchange Act of 1934, as amended (Exchange Act). Section 31 fees are assessed on the notional value traded and are designed to recover the costs to the government of supervision and regulation of securities markets and securities professionals. These fees are paid directly to the SEC by the Company. The Company, in turn, collects regulatory transaction fees from its members that are designed to equal to the Section 31 fees. The Company acts as the principal versus an agent on these transactions, and therefore these transactions are reported gross in the statement of operations. The Company collects the regulatory transaction fees as a pass-through charge from members executing eligible trades and recognizes these amounts in revenues, and the related Section 31 fees in cost of revenues as incurred on a settlement-date basis. Regulatory transaction fees received are included in cash and cash equivalents and financial investments in the statement of financial condition at the time of receipt. As required by law, the amount due to the SEC is remitted semiannually and recorded as Section 31 fees payable in the statement of financial condition until paid. Because the Company holds the funds received until payment is remitted to the SEC, the Company earns interest on the related balances.

**Port Fees**

Port fees are generated primarily from connectivity services related to each of the electronic markets. Port fees are recognized on a monthly basis.

**(3) Recently Issued Accounting Pronouncements**

In May 2014, the FASB issued Accounting Standards Update, or ASU, 2014-09, "Revenue from Contracts with Customers (Topic 606)," which supersedes the revenue recognition guidance in ASC 605, "Revenue Recognition." The new revenue recognition standard sets forth a five-step revenue

**EDGX EXCHANGE, INC.**  
Notes to Financial Statements  
(In thousands)

recognition model to determine when and how revenue is recognized. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration it expects to receive in exchange for those goods or services. The standard also requires more detailed disclosures. The standard provides alternative methods of initial adoption and is effective for the Company on January 1, 2017. Early adoption is not permitted. The Company is currently assessing the impact that this standard will have on the financial statements.

**(4) Investments**

The Company's financial investments, which are classified as available-for-sale, have original or acquired maturities longer than three months, but mature in less than one year from the statement of financial condition date are classified as current assets and are summarized as follows as of December 31, 2014:

	Cost basis	Unrealized gains	Unrealized losses	Fair value
U.S. Treasury securities	\$ 16,199	\$ —	\$ —	\$ 16,199

**(5) Accounts Payable and Accrued Liabilities**

Accounts payable and accrued liabilities consisted of the following as of December 31, 2014:

Accounts payable	\$ 13,076
Accrued liabilities	<u>7,026</u>
Accounts payable and accrued liabilities	<u><u>\$ 20,102</u></u>

**(6) Fair Value Measurement**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP sets out a fair value hierarchy that gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Inputs are broadly defined as assumptions market participants would use in pricing an asset or liability. The three levels of the fair value hierarchy are described below:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. The types of investments included in Level 1 include listed equities and listed derivatives.

Level 2: Inputs other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly, and fair value is determined through the use of models or other valuation methodologies. Investments that are generally included in this category include corporate bonds and loans, less liquid and restricted equity securities and certain over-the-counter derivatives. A significant adjustment to a Level 2 input could result in the Level 2 measurement becoming a Level 3 measurement.

**EDGX EXCHANGE, INC.**  
Notes to Financial Statements  
(In thousands)

Level 3: Inputs are unobservable for the asset or liability and include situations where there is little, if any, market activity for the asset or liability. The inputs into the determination of fair value are based upon the circumstances and the best information available at the time and may require significant management judgment or estimation. Investments that are included in this category generally include equity and debt positions in private companies.

Financial investments consist of U.S. Treasury securities. These securities are valued by obtaining feeds from a number of data sources, including active market makers and inter-dealer brokers and therefore are categorized as Level 1.

The carrying amounts of cash and cash equivalents, accounts receivable, other receivables, accounts payable and Section 31 fees payable approximate fair value due to their liquid or short-term nature. Cash and cash equivalents is categorized as Level 1, while accounts receivable, other receivables, accounts payable and Section 31 fees payable are categorized as Level 2.

**(7) Related Party Transactions**

Certain affiliates of stockholders of BATS conduct trading activity through the Company. The extent of such activity is presented in the accompanying statements of financial condition, income and cash flows.

The Company maintains brokerage accounts with a stockholder of BATS. As of December 31, 2014, \$22,597 in cash and cash equivalents and financial investments were held in such accounts.

The Company routes certain trades to other market centers through affiliated broker-dealers. Based upon intercompany arrangements in place, the Company remits the revenue earned from customers for routing these transactions to the affiliated broker-dealers. The total expense associated with these arrangements is \$12,164 and is included in routing and clearing in the statement of operations.

The Company also records expenses allocated from BATS for various operating expenses. Similar results may not be achievable on an arm's length basis. The following table presents the Company's allocation of expenses from BATS for the eleven months ended December 31, 2014:

Compensation and benefits	\$ 28,823
Systems and data communication	7,261
Occupancy	1,203
Professional and contract services	997
Regulatory costs	2,546
Management fee	11,376
General and administrative	9,111
	<u>\$ 61,317</u>

The intercompany receivable balance presented on the statement of financial condition is primarily made up of a receivable from certain trading activities with the Parent and other affiliated entities.

**EDGX EXCHANGE, INC.**  
Notes to Financial Statements  
(In thousands)

**(8) Income Taxes**

Net deferred tax assets consist of the following components as of December 31, 2014:

Deferred tax assets:	
State net operating losses	\$ 771
Deferred revenue	132
Bad debts	6
Unrecognized tax benefits	78
Total deferred tax assets	987

The Company provides a valuation allowance against deferred tax assets if, based on management's assessment of historical and projected future operating results and other available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. As of December 31, 2014, the Company has state net operating loss carryforwards of approximately \$13,000 for tax purposes, which will be available to offset future taxable income. If not used, these carryforwards will expire beginning in 2026. Certain of the net operating losses are subject to limitations caused by a change in ownership. The Company anticipates that all state net operating losses will be utilized prior to expiration. Management believes it is more likely than not that the deferred tax assets will be realized based upon expectations of future taxable income; therefore no valuation allowance related to deferred tax assets was established as of or during the eleven months ended December 31, 2014.

The income tax benefit for the eleven months ended December 31, 2014 consists of the following:

Current tax benefit:	
Federal	\$ (1,312)
State	(661)
Total current tax benefit	(1,973)
Deferred income tax expense:	
Federal	28
State	371
Income tax benefit	\$ (1,574)

**EDGX EXCHANGE, INC.**  
Notes to Financial Statements  
(In thousands)

The income tax benefit differs from the amount of income tax determined by applying the U.S. federal income tax rate to loss before income tax benefit for the eleven months ended December 31, 2014 due to the following:

Computed "expected" income tax benefit	\$ (1,374)	35.0%
(Increase) decrease in income tax benefit resulting from:		
State income taxes	(273)	7.0
Unrecognized tax benefit	77	(2.0)
Other	(4)	0.1
	<u>(1,574)</u>	<u>40.1%</u>
Income tax benefit	<u>\$ (1,574)</u>	<u>40.1%</u>

A reconciliation of the unrecognized tax benefits for the eleven months ended December 31, 2014 is as follows:

Balance at January 31, 2014	\$ 228
Additions for current year tax positions	—
Additions for prior year tax positions	140
Reductions for prior year tax positions	(121)
Reductions due to settlements	(23)
Balance at December 31, 2014	<u>\$ 224</u>

It is reasonably possible that the total amount of unrecognized tax benefits may decrease by approximately \$20 within the next twelve months due to expiring statutes of limitation.

At December 31, 2014, the Company had \$204 of unrecognized tax benefits, net of federal benefit that, if recognized, would affect the effective tax rate. The Company had accrued interest and penalties of \$57 related to uncertain tax positions at December 31, 2014.

The Company's open tax years are 2011 through 2014. The Company is currently under a U.S. federal income tax examination for tax years 2012, 2013 and the short-period ended January 31, 2014, prior to the Acquisition Date. The Company is also under income tax examinations in certain states. The Company believes the aggregate amount of any additional liabilities that may result from these examinations, if any, will not have a material adverse effect on the financial position, results of operations, or cash flows of the Company.

**(9) Commitments and Contingencies**

***Legal Proceedings***

From time to time the Company is involved in various reviews, inspections, or other legal proceedings arising in the ordinary course of business. The Company does not believe that the outcome of any of the reviews, inspections or other legal proceedings will have a material impact on the financial position, results of operations or cash flows; however, litigation is subject to many uncertainties, and the outcome of individual litigated matters is not predictable with assurance.

**EDGX EXCHANGE, INC.**  
Notes to Financial Statements  
(In thousands)

In May 2014, three class action lawsuits were filed in the Southern District by Harold Lanier against various securities exchanges, including the Company, that are participants in each of the three national market system data distribution plans - the CTA, the UTP, and the Options Price Reporting Authority (the Plans) - which are established under the Exchange Act and regulated by the SEC. Lanier alleged that the exchange participants in the Plans breached agreements with subscribers by disseminating market data in a discriminatory manner in that other "preferred" customers allegedly received their data faster than the proposed class. The complaints sought, among other relief, unspecified compensatory damages, restitution of the putative class's subscription fees paid to the defendants, disgorgement of the fees paid by the so-called preferred customers, and injunctive and declaratory relief. On April 28, 2015, the Court filed an Opinion and Order granting the exchange defendants' Motion to Dismiss, terminating all three class action lawsuits with prejudice. On May 20, 2015, Lanier filed a notice of appeal from the Court's Opinion and Order and final Judgment of dismissal. While it is too early in the litigation to estimate any range of possible losses or predict the outcome of the case, the Company believes that these allegations are without merit and intends to vigorously defend this litigation.

As a self-regulatory organization under the jurisdiction of the SEC, the Company is subject to routine reviews and inspections by the SEC.

In February 2012, the Company received a written request from the SEC's Division of Enforcement seeking documents and information related to the development, modification and use of order types, and the Company's communications with certain market participants (including certain exchange members affiliated with certain of Direct Edge's stockholders and directors) regarding the development, modification and use of order types; the Company's information technology systems; and trading strategies. On January 12, 2015, the SEC's Division of Enforcement announced an Order Instituting Administrative Cease-and-Desist Proceedings and Imposing Remedial Sanctions against EDGX Exchange, Inc. and an affiliate (the Exchanges) in which the Exchanges entered into a settlement agreement with the Commission, without admitting or denying the allegations, agreeing to pay a fine in the amount of \$14,000 and comply with certain undertakings. The fine was paid to the SEC on January 13, 2015 by the Exchanges. The settlement arrangement named both of the Exchanges; therefore, the fine was proportionately allocated between the Company and its affiliate. Furthermore, BATS indemnified the Exchanges against the full amount of the SEC fine. Consequently, the Company recorded an intercompany receivable and a corresponding payable to the SEC of \$7,000. The other affiliate named in the settlement arrangement recorded the remaining \$7,000 of the aforementioned fine.

**(10) Subsequent Events**

The Company has performed an evaluation of events that have occurred subsequent to December 31, 2014 through June 24, 2015 the date the financial statements were issued.

As of January 12, 2015, the Company's exchange operations were migrated to a new technology platform. In conjunction with this migration, the Company began routing all trades through the Parent's affiliated broker-dealer. The Company will no longer route trades through its legacy affiliated broker-dealer.

There have been no other subsequent events that have occurred during such period that would require disclosure in, or adjustment to, the financial statements as of and for the eleven months ended December 31, 2014.

## Independent Auditors' Report

The Board of Directors  
EDGA Exchange, Inc.:

We have audited the accompanying financial statements of EDGA Exchange, Inc. (the Company), which comprise the statement of financial condition as of December 31, 2014, and the related statements of income, comprehensive income, changes in stockholder's equity, and cash flows for the eleven months then ended, and the related notes to the financial statements.

### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditors' Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Opinion*

In our opinion, the financial statements referred to above present fairly in all material respects, the financial position of the Company as of December 31, 2014, and the results of its operations and its cash flows for the eleven months then ended in accordance with U.S. generally accepted accounting principles.

**(1) Nature of Operations**

EDGA Exchange, Inc. (the Company or EDGA), a wholly owned subsidiary of BATS Global Markets, Inc. (BATS), is an electronic market for the trading of listed cash equity securities in the United States (U.S.). The Company is headquartered in the Kansas City, Missouri, area with additional offices in New York, New York, Jersey City, New Jersey, and Chicago, Illinois. On January 31, 2014 (the Acquisition Date), the Company's parent, Direct Edge Holdings LLC (Direct Edge), was acquired by BATS. The statement of income includes results of operations for the eleven month period beginning February 1, 2014 through December 31, 2014.

**(2) Summary of Significant Accounting Policies**

**(a) Principles of Accounting**

The Company follows accounting standards established by the Financial Accounting Standards Board (FASB) to report its financial condition, results of operations and cash flows. References to accounting principles generally accepted in the U.S. (GAAP) in these footnotes are to the FASB Accounting Standards Codification (ASC or Codification).

**(b) Use of Estimates**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as well as disclosure of the amounts of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from those estimates. Material estimates that are particularly susceptible to significant change in the near term include unrecognized tax benefits.

**(c) Cash and Cash Equivalents**

The Company's cash and cash equivalents are exposed to concentrations of credit risk. The Company maintains cash at various financial institutions and brokerage firms which, at times, may be in excess of the federal depository insurance limit. The Company's management regularly monitors these institutions and believes that the potential for future loss is remote. The Company considers all liquid investments with original or acquired maturities of three months or less to be cash equivalents.

**(d) Financial Investments**

Financial investments are classified as available-for-sale.

Unrealized gains and losses, net of income taxes, are included as a component of accumulated other comprehensive income, net in the accompanying statement of financial condition.

Interest on financial investments, including amortization of premiums and accretion of discounts, is recognized as income when earned. Realized gains and losses on financial investments are calculated using the specific identification method and are included in interest and investment income in the accompanying statement of income.

A decline in the market value of any available-for-sale investment below carrying amount that is deemed to be other-than-temporary results in an impairment to reduce the carrying amount to

**EDGA EXCHANGE, INC.**  
Notes to Financial Statements  
(In thousands)

realizable value. To determine whether an impairment is other-than-temporary, the Company considers all available information relevant to the collectability of the investment, including past events, current conditions, and reasonable and supportable forecasts when developing estimate of cash flows expected to be collected. Evidence considered in this assessment includes the reasons for the impairment, the severity and duration of the impairment, changes in value subsequent to year-end, forecasted performance of the investee, and the general market condition in the geographic area or industry in which the investee operates.

**(e) *Accounts Receivable, Net***

Accounts receivable represent amounts due from the Company's customers and market data distributors and are carried at cost. On a periodic basis, management evaluates the Company's receivables and determines if an allowance for uncollectible accounts receivable based on anticipated collections is required. In circumstances where a specific customer or market data distributors' inability to meet its financial obligations is probable, the Company records a specific provision for uncollectible accounts against amounts due to reduce the receivable to the amount the Company estimates will be collected.

**(f) *Income Taxes***

Deferred taxes are recorded on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards, and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. The results of the Company's operations are included in BATS' income tax returns. Income taxes are allocated to the Company using the pro-rata method. Tax accounts are settled periodically in accordance with the tax sharing agreement in place with BATS.

The Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based upon the technical merits of the position. The tax benefit recognized in the financial statements from such a position is measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Also, interest and penalties expense is recognized on the full amount of deferred benefits for uncertain tax positions. The Company's policy is to include interest and penalties related to unrecognized tax benefits in the income tax provision within the statement of income.

**(g) *Revenue Recognition***

**Transaction Fees and Liquidity Payments**

Under the Company's "taker-maker" pricing model, a liquidity taker is paid a rebate (recorded in liquidity payments) for an execution occurring against that order and a liquidity maker is charged a fee (recorded in transaction fees) for posting such an order. Transaction fees and liquidity payments are considered earned and incurred upon execution of a trade and are recognized on a trade-date basis and are recorded on a gross basis in revenues and cost of revenues.

**EDGA EXCHANGE, INC.**  
Notes to Financial Statements

**Market Data Fees**

Market data fees are earned from U.S. tape plans, including the Unlisted Trading Privileges Plan (UTP) and the Consolidated Tape Association Plan (CTA), and also proprietary market data products. Fees collected from tape plan subscribers, net of plan costs, from UTP and CTA are allocated and distributed to plan participants according to their share of tape fees based on a formula required by Securities and Exchange Commission (SEC) Regulation NMS that takes into account both trading and quoting activity. The Company also charges data subscribers directly for proprietary market data. The proprietary market data fees are recognized on a monthly basis.

**Regulatory Transaction and Section 31 Fees**

The Company, as a U.S. exchange, is assessed Section 31 fees pursuant to the Securities Exchange Act of 1934, as amended (Exchange Act). Section 31 fees are assessed on the notional value traded and are designed to recover the costs to the government of supervision and regulation of securities markets and securities professionals. These fees are paid directly to the SEC by the Company. The Company, in turn, collects regulatory transaction fees from its members that are designed to equal to the Section 31 fees. The Company acts as the principal versus an agent on these transactions, and therefore these transactions are reported gross in the statement of income. The Company collects the regulatory transaction fees as a pass-through charge from members executing eligible trades and recognizes these amounts in revenues, and the related Section 31 fees in cost of revenues as incurred on a settlement-date basis. Regulatory transaction fees received are included in cash and cash equivalents and financial investments in the statement of financial condition at the time of receipt. As required by law, the amount due to the SEC is remitted semiannually and recorded as Section 31 fees payable in the statement of financial condition until paid. Because the Company holds the funds received until payment is remitted to the SEC, the Company earns interest on the related balances.

**Port Fees**

Port fees are generated primarily from connectivity services related to each of the electronic markets. Port fees are recognized on a monthly basis.

**(3) Recently Issued Accounting Pronouncements**

In May 2014, the FASB issued Accounting Standards Update, or ASU, 2014-09, "Revenue from Contracts with Customers (Topic 606)," which supersedes the revenue recognition guidance in ASC 605, "Revenue Recognition." The new revenue recognition standard sets forth a five-step revenue recognition model to determine when and how revenue is recognized. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration it expects to receive in exchange for those goods or services. The standard also requires more detailed disclosures. The standard provides alternative methods of initial adoption and is effective for the Company on January 1, 2017. Early adoption is not permitted. The Company is currently assessing the impact that this standard will have on the financial statements.

**EDGA EXCHANGE, INC.**

**(4) Investments**

The Company's financial investments with original or acquired maturities longer than three months, but that mature in less than one year from the statement of financial condition date are classified as current assets and are summarized as follows as of December 31, 2014:

	Cost basis		Unrealized gains		Unrealized losses		Fair value
U.S. Treasury securities	\$ 7,300	\$	—	\$	—	\$	7,300

**(5) Accounts Payable and Accrued Liabilities**

Accounts payable and accrued liabilities consisted of the following as of December 31, 2014:

Accounts payable	\$ 230
Accrued liabilities	<u>7,000</u>
Accounts payable and accrued liabilities	<u><u>\$ 7,230</u></u>

**(6) Fair Value Measurement**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP sets out a fair value hierarchy that gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Inputs are broadly defined as assumptions market participants would use in pricing an asset or liability. The three levels of the fair value hierarchy are described below:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. The types of investments included in Level 1 include listed equities and listed derivatives.

Level 2: Inputs other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly, and fair value is determined through the use of models or other valuation methodologies. Investments that are generally included in this category include corporate bonds and loans, less liquid and restricted equity securities and certain over-the-counter derivatives. A significant adjustment to a Level 2 input could result in the Level 2 measurement becoming a Level 3 measurement.

Level 3: Inputs are unobservable for the asset or liability and include situations where there is little, if any, market activity for the asset or liability. The inputs into the determination of fair value are based upon the circumstances and the best information available at the time and may require significant management judgment or estimation. Investments that are included in this category generally include equity and debt positions in private companies.

Financial investments consist of U.S. Treasury securities. These securities are valued by obtaining feeds from a number of data sources, including active market makers and inter-dealer brokers and therefore categorized as Level 1.

**EDGA EXCHANGE, INC.**  
Notes to Financial Statements  
(In thousands)

The carrying amounts of cash and cash equivalents, accounts receivable, other receivables, accounts payable and Section 31 fees payable approximate fair value due to their liquid or short-term nature. Cash and cash equivalents is categorized as Level 1, while accounts receivable, other receivables, accounts payable and Section 31 fees payable are categorized as Level 2.

**(7) Related Party Transactions**

Certain affiliates of stockholders of BATS conduct trading activity through the Company. The extent of such activity is presented in the accompanying statements of financial condition, income and cash flows.

The Company maintains brokerage accounts with a stockholder of BATS. As of December 31, 2014, \$10,033 in cash and cash equivalents and financial investments were held in such accounts.

The Company routes certain trades to other market centers through affiliated broker-dealers. Based upon intercompany arrangements in place, the Company remits the revenue earned from customers for routing these transactions to the affiliated broker-dealers. The total expense associated with this arrangement is \$24,739 and is included in routing and clearing in the statement of income.

The Company also records expenses allocated from BATS for various operating expenses. Similar results may not be achievable on an arm's length basis. The following table presents the Company's allocation of expenses from BATS for the eleven months ended December 31, 2014:

Compensation and benefits	\$ 11,659
Systems and data communication	2,949
Occupancy	485
Professional and contract services	403
Regulatory costs	1,030
Management fee	4,601
General and administrative	3,694
	<u>\$ 24,821</u>

The intercompany receivable balance presented on the statement of financial condition is primarily made up of a receivable from certain trading activities with the Parent and other affiliated entities.

**EDGA EXCHANGE, INC.**

**(8) Income Taxes**

Net deferred tax assets consist of the following components as of December 31, 2014:

Deferred tax assets:	
State net operating losses	\$ 681
Deferred revenue	134
Bad debts	4
Unrecognized tax benefits	<u>26</u>
Total deferred tax assets	<u><u>845</u></u>

The Company provides a valuation allowance against deferred tax assets if, based on management's assessment of historical and projected future operating results and other available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. As of December 31, 2014, the Company has state net operating loss carryforwards of approximately \$11,200 for tax purposes, which will be available to offset future taxable income. If not used, these carryforwards will expire beginning in 2026. Certain of the net operating losses are subject to limitations caused by a change in ownership. The Company anticipates that all state net operating losses will be utilized prior to expiration. Management believes it is more likely than not that the deferred tax assets will be realized based upon expectations of future taxable income; therefore no valuation allowance related to deferred tax amounts was established as of or during the eleven months ended December 31, 2014.

The income tax provision for the eleven months ended December 31, 2014 consists of the following:

Current tax expense:	
Federal	\$ 4,532
State	<u>1,071</u>
Total current tax expense	5,603
Deferred income tax (benefit) expense:	
Federal	(12)
State	<u>567</u>
Income tax provision	<u><u>\$ 6,158</u></u>

**EDGA EXCHANGE, INC.**  
Notes to Financial Statements  
(In thousands)

The income tax provision differs from the amount of income tax determined by applying the U.S. federal income tax rate to income before income tax provision for the eleven months ended December 31, 2014 due to the following:

Computed "expected" income tax provision \$	5,262	35.0%
(Decrease) increase in income tax resulting from:		
Section 199 benefit	(156)	(1.0)
State income taxes	1,018	6.8
Unrecognized tax benefits	14	0.1
Other	20	0.1
Income tax provision	\$ 6,158	41.0%

A reconciliation of the unrecognized tax benefits for the eleven months ended December 31, 2014 is as follows:

Balance at January 31, 2014	\$ 166
Additions for current year tax positions	—
Additions for prior year tax positions	43
Reductions for prior year tax positions	(90)
Reductions due to settlements	(26)
Balance at December 31, 2014	\$ 93

It is reasonably possible that the total amount of unrecognized tax benefits may decrease by approximately \$8 within the next twelve months due to expiring statutes of limitation.

At December 31, 2014, the Company had \$90 of unrecognized tax benefits, net of federal benefit that, if recognized, would affect the effective tax rate. The Company had accrued interest and penalties of \$23 related to uncertain tax positions at December 31, 2014.

The Company's open tax years are 2011 through 2014. The Company is currently under a U.S. federal income tax examination for tax years 2012, 2013 and the short-period ended January 31, 2014. The Company is also under income tax examinations in certain states. The Company believes the aggregate amount of any additional liabilities that may result from these examinations, if any, will not have a material adverse effect on the financial position, results of operations, or cash flows of the Company.

**(9) Commitments and Contingencies**

***Legal Proceedings***

From time to time the Company is involved in various reviews, inspections or other legal proceedings arising in the ordinary course of business. The Company does not believe that the outcome of any of the reviews, inspections or other legal proceedings will have a material impact on the financial position,

**EDGA EXCHANGE, INC.**  
Notes to Financial Statements  
(In thousands)

results of operations or cash flows; however, litigation is subject to many uncertainties, and the outcome of individual litigated matters is not predictable with assurance.

In May 2014, three class action lawsuits were filed in the Southern District by Harold Lanier against various securities exchanges, including the Company, that are participants in each of the three national market system data distribution plans – the CTA, the UTP Plan, and the Options Price Reporting Authority (the Plans) - which are established under the Exchange Act and regulated by the SEC. Lanier alleged that the exchange participants in the Plans breached agreements with subscribers by disseminating market data in a discriminatory manner in that other “preferred” customers allegedly received their data faster than the proposed class. The complaints sought, among other relief, unspecified compensatory damages, restitution of the putative class’s subscription fees paid to the defendants, disgorgement of the fees paid by the so-called preferred customers, and injunctive and declaratory relief. On April 28, 2015, the Court filed an Opinion and Order granting the exchange defendants’ Motion to Dismiss, terminating all three class action lawsuits with prejudice. On May 20, 2015, Lanier filed a notice of appeal from the Court’s Opinion and Order and final Judgment of dismissal. While it is too early in the litigation to estimate any range of possible losses or predict the outcome of the case, the Company believes that these allegations are without merit and intends to vigorously defend this litigation.

As a self-regulatory organization under the jurisdiction of the SEC, the Company is subject to routine reviews and inspections by the SEC.

In February 2012, the Company received a written request from the SEC’s Division of Enforcement seeking documents and information related to the development, modification and use of order types, and the Company’s communications with certain market participants (including certain exchange members affiliated with certain of Direct Edge’s stockholders and directors) regarding the development, modification and use of order types; the Company’s information technology systems; and trading strategies. On January 12, 2015, the SEC’s Division of Enforcement announced an Order Instituting Administrative Cease-and-Desist Proceedings and Imposing Remedial Sanctions against EDGA Exchange, Inc. and an affiliate (the Exchanges) in which the Exchanges entered into a settlement agreement with the Commission, without admitting or denying the allegations, agreeing to pay a fine in the amount of \$14,000 and comply with certain undertakings. The fine was paid to the SEC on January 13, 2015 by the Exchanges. The settlement arrangement named both of the Exchanges; therefore, the fine was proportionately allocated between the Company and its affiliate. Furthermore, BATS indemnified the Exchanges against the full amount of the SEC fine. Consequently, the Company recorded an intercompany receivable and a corresponding payable to the SEC of \$7,000. The other affiliate named in the settlement arrangement recorded the remaining \$7,000 of the aforementioned fine.

**(10) Subsequent Events**

The Company has performed an evaluation of events that have occurred subsequent to December 31, 2014 through June 24, 2015 the date the financial statements were issued.

As of January 12, 2015, the Company’s exchange operations were migrated to a new technology platform. In conjunction with this migration, the Company began routing all trades through the Parent’s affiliated broker-dealer. The Company will no longer route trades through its legacy affiliated broker-dealer.

**EDGA EXCHANGE, INC.**  
Notes to Financial Statements

There have been no other subsequent events that have occurred during such period that would require disclosure in, or adjustment to, the financial statements as of and for the year ended December 31, 2014.

**Exhibit Request:**

This Exhibit is applicable only to exchanges that have one or more owners, shareholders, or partners that are not also members of the exchange. If the exchange is a corporation, please provide a list of each shareholder that directly owns 5% or more of a class of a voting security of the applicant. If the exchange is a partnership, please provide a list of all general partners and those limited and special partners that have the right to receive upon dissolution, or have contributed, 5% or more of the partnership's capital. For each of the persons listed in the Exhibit K, please provide the following:

1. Full legal name;
2. Title or Status;
3. Date title or status was acquired;
4. Approximate ownership interest; and
5. Whether the person has control, a term that is defined in the instructions to this Form.

**Response:**

EDGA Exchange, Inc. ("EDGA") is wholly-owned by Direct Edge LLC (f/k/a Direct Edge, Inc.) ("Direct Edge"). Direct Edge is the sole stockholder of EDGA and acquired its interest in the Exchange on July 22, 2010. Direct Edge is wholly-owned by Direct Edge Holdings LLC. BATS Global Markets, Inc. ("BATS Global Markets") is the sole stockholder of Direct Edge Holdings LLC and acquired its interest in Direct Edge Holdings LLC on January 31, 2014. BATS Global Markets, Inc. exercises "control" over the Exchange, as that term is defined in the Form 1 instructions.

**Exhibit M**

**Exhibit Request:**

Provide an alphabetical list of all members, participants, subscribers or other users, including the following information:

1. Name,
2. Date of election to membership or acceptance as a participant, subscriber or other user,
3. Principal business address and telephone number,
4. If member, participant, subscriber or other user is an individual, the name of the entity with which such individual is associated and the relationship of such individual to the entity (e.g., partner, officer, director, employee, etc.),
5. Describe the type of activities primarily engaged in by the member, participant, subscriber, or other user (e.g., floor broker, specialist, odd lot dealer, other market maker, proprietary trader, non-broker dealer, inactive or other functions). A person shall be "primarily engaged" in an activity or function for purposes of this item when that activity or function is the one in which that person is engaged for the majority of their time. When more than one type of person at an entity engages in any of the six types of activities or functions enumerated in this item, identify each type (e.g., proprietary trader, Registered Competitive Trader and Registered Competitive Market Maker) and state the number of members, participants, subscribers, or other users in each, and
6. The class of membership, participation or subscription or other access.

**Exhibit N**

**Exhibit Request: Provide a schedule for each of the following:**

- 1. The securities listed in the exchange, indicating for each the name of the issuer and a description of the security;**
- 2. The securities admitted to unlisted trading privileges, indicating for each the name of the issuer and a description of the security;**
- 3. The unregistered securities admitted to trading on the exchange which are exempt from registration under Section 12(a) of the Act. For each security listed, provide the name of the issuer and a description of the security, and the statutory exemption claimed (e.g., Rule 12a-6); and**
- 4. Other securities traded on the exchange, including for each the name of the issuer and a description of the security.**

**Response:**

Attached is a schedule showing the information requested by this Exhibit as of June 25, 2015.

All securities that trade through the EDGA Exchange System are "NMS stocks," as such term is defined in Rule 600(b)(47) of Regulation NMS, and are traded pursuant to unlisted trading privileges. The Exchange does not currently list any securities, though it may do so in the future. The Exchange allows trading of Nasdaq National Market and Nasdaq Capital Market securities (both "Nasdaq securities" as defined in Rule 600(b)(41) of Regulation NMS) through EDGA Exchange. The Exchange also allows trading of exchange-traded securities, as defined in Rule 600(b)(25) of Regulation NMS, including exchange-traded funds or ETFs.
